## Facilities Inadequate; no Corporal Punishment, Byrd's Statement

(Continued from page 1)

January 1 the total population was 937, with 123 out on vacations, a number of which will be permanent.

The inmates were classified into four groups, as follows: Idiots, 24 per cent; imbeciles, 46 per cent; morons, 28 per cent, and high grade morons, 2 per cent.

Of the 23 high grade morons, five were reported as epileptic, one a cripple, four are out on "vacations." The remainder are virtually homeless or are not desired at home. The inmates are all segregated as far as possible in the various cottages, according to age and mental capacity.

Dr. Byrd recommended changing the name of the institution, saying the name "feeble-minded" is resented by the patients.

The reports will be submitted to the board of control.

with that group in interest of lower rates on incubators and brooders.

Members declared that the law requiring posting of signs in restaurants and bakeries where foreign or dried eggs are used, is not being enforced, and instructed officials to consult with Max Gehlar, director of the state agricultural department, in interests of enforcement.

Readjustment of express shipment rates to California and fresh and hatching eggs will be sought as result of the discussion yesterday. There is sufficiently large demand in the south to warrant this, members declared.

A complete change in officers was effected: Merle Moore of Corvallis, president; Dr. R. E. Duganne, of Independence, vice-president; A. E. Leary, Woodburn, secretary-treasurer. Lloyd A. Lee of Salem has been secretary.

The association meets twice a year, usually an all-day session being held near or at fair time.

# Close Race For Honor of First Twins is Noted

Old Mr. Stork who hovered over the Deaconess hospital was just a wee bit slow, and as a result, honors for the first pair of twins in Salem this year go to the Salem General hospital, according to members of the staff.

Twins girls were born at the Deaconess hospital last Saturday night, January 2, to Mr. and Mrs. Ralph Alexander Harold, route eight, and twin girls were born that same night at the General hospital to Mr. and Mrs. George Frichtl of Stayton.

The Frichtl twins—Marilene Rae and Marilyn Lee—were born at 10:43 and 10:46. The Harold twins arrived at 11:10 and 11:15. So that makes the Frichtl girls the first 1932 twins.

# Scientifically Purer..

## Something every smoker wants to know!

• Absolutely pure... that's what you expect in the things you eat and drink... and in the cigarettes you smoke.

"Chesterfields are as pure as the water you drink," a noted scientist writes. There's no way to make a purer cigarette. Starting with tobaccos... the ripest, finest, purest leaf that grows is selected for Chesterfields. Mild to start with... Cross-Blending makes it milder still. Then it's wrapped in paper that is so pure it burns without any taste or odor.

The phrase "Scientifically Purer" is entirely justified. By our use of a highly scientific process which was worked out by Dr. Paul Gross, the Head Chemist of our Research Department, Chesterfield reaches a state of purity unmatched, to our knowledge, by any other cigarette.

In addition, scientists check every ingredient, every method. Even the factory air is washed, and changed every 4 1/2 minutes. More purity!

Notice, too, the clean, white, attractive package... moisture-proof. Chesterfields come to you as good and as pure as they're made. Good... they've got to be good! Change to Chesterfields and see.

A WONDERFUL NEW RADIO PROGRAM! Tonight... at 10:30... Chesterfield's Radio Program. Light a Chesterfield... lean back... and relax while Nat Shilkret's Orchestra and Alex Gray, soloist, charm away your cares. It's on the entire Columbia Network... broadcast from coast to coast... every night except Sunday. And the hour's 10:30 E. S. T.
