Oregon's full-fledged welterweight wrestling champion, has always been popular in Salem, but even his friends here did not fully appreciate or realize just the extent of his wrestling greatness.

Since coming to this section, Art Perkins has toppled Jack Sampson and another gentleman at Albany by the name of Jackson. However this was not the same so-called "Bulldog" Jackson who appeared here, but a real topnotcher. Albany hails Perkins as another Henry Jones, which means that he must have the

Newton employed this toss successfully here when defending his championship belt against Jack Brentano.

O'Reilly is particularly good with shoulder butts and also with knee jabs which apparently are permissible. However he will also have to guard against sonnenbergs, the weapon which first son publicity; and so we find that brought Newton into wrestling our home town boy who made

## Parrish Defeats

Parrish junior high won its fourth straight basketball victory of the season and remained undefeated by ekeing out a 17-to-13 win from Newberg junior high on the opponents' small gymnasium. Parrish will play at Aumsville high Wednesday and will meet Scotts Mills here Friday in Marion county league games.

MATCH POSTPONED Because of conflict with a wrestling bout scheduled at the armory, the match between the Salem Wrestling club and the Multnomah Athletic club of Portland, to be held at the Y. M. C. A. here, has been changed from January 19 to January 21.

It's unnecessary to remind followers of high school sports that Fritz Kramer, who tutored the lofty Pendleton five to the 1931 state title, is now head coach at Eugene's high.

Report comes from Eugene that Kramer is sticking to tall men, a noticeable tendency of many winning coaches of late, and that he has this favored type of hoopers to work with at Eugene high. Coach Hollis Huntington of Salem high perhaps would like to do the same, but he hasn't an outstandingly tall man on his first five. Plan No. 476-This floor-plan allows for utilization to the best advantage of space in an attractive six-room house covering 32x26 feet of ground. All of the rooms, including the vestibule at the entrance, are of ample size and well adapted to their uses. The living room is well lighted and a wide fireplace gives an added touch of hominess. Two corner bedrooms, each with cross ventilation open on the central hallway, from which a stairway leads to additional sleeping space upstairs.

Use of shakes on the exterfor walls may be varied with siding or stucco in the gables if the owner chooses. Board shutters enhance the charm of the well placed small-paned windows. The fireplace chimney, of brick or stucco, gives added charm to the exterior.
