# REPORTED IN 1931

Increase in Deaths Offsets Gain; Infant Mortality In County Higher

The number of births in Marion county during 1931 was 968, an increase of 33 over 1930, according to the annual report of the county health department, An increase in the number of deaths from 594 in 1930 to 643 offset the gain in births.

Males born in 1931 numbered 505 and males dying, 374. There were no maternal deaths last year whereas in 1930 there were two. Deaths of infants under one month of age increased from 20 to 34 and of infants under one year, from 34 to 45. Infant deaths in Salem, however, decreased from 12 to 11. These increases probaby were due to economic condiions, Dr. Vernon A. Douglas, county health officer, believes.

Deaths attributable to communicable disease and other causes showed variations of increase and decrease. The variations were as follows: Cancer, from 61 in 1930 to 80 in 1931; diabetes, from 10 in 1930 to 11 in 1931; apoplexy, from 44 in 1930 to 64 in 1931; heart disease, from 137 in 1930 to 145 in 1931; kidney disease, 62 both years; automo-bile accidents, from 28 in 1939 to 27 in 1931; all other causes from 156 in 1930 to 163 in 1931 The rise in deaths from old-age diseases is accountable for by the fact that the length of life is increasing to the period in which hese diseases occur.

One birth was reported in both rears at state institutions where the parents are of non-resident status. In these same institutions, there were 290 deaths in 1931 and 312 in 1930.

# FAMILIES OF DAINK PEDDLERS NEED AID

Methods of Prohibition are Held to Blame in Part For Relief Needs

Supporting bootleggers' families is taking a let of money which should go to keep persons who are more deserving, Judge U. G. Couch of Union county, told J. M. Devers, attorney for the state highway commission, in a letter received Wednesday. The letter had to do with unemployment

"Enforcement of the prohibition law is becoming more disgusting every day", Judge Couch

Judge Couch said the unemployment situation in Union county was very serious, with 882 registered for employment and 600 in dire need. He urged federal aid · in connection with the state employment program.

"The way our state and federal law enforcement officers enforce the prohibition law is dis-gusting." Judge Couch continued. 'It seems to me, but of course I may be wrong, their only ambition is to pick up a few poor 'boobs', making a little home brew and possibly bootlegging a little, always with large families. No sooner is the husband in jail than the wife is demanding assistance for herself and kiddies. "This is done while the real bootlegger and the 'goodle good-

ie,' citizen who encourages the poor 'boob' to violate the law, keeps going full blast. This resuits in the poor man being put in jati and the taxpayers are forced to support his family." The letter was in reply to a query from Devers requesting ad-

ditional data regarding unemployment conditions in Union county, Devers is in charge of unemployment activities in Oregon for Governor Meler.
