# Under the Occurrences and Gossip at the center of Oregon's state government

**WINTER weather** around Salem yesterday looked mighty good to middle westerners and easterners for a change. It seemed great to see a real winter picture around the city, and one of the prettiest sights was the capitol grounds, with its trees, shrubbery and bushes all covered with the white blanket. Made us feel like getting out the old skis.

**From all indications** Willard Marks of Albany will again be governor of the state for several weeks. With Governor Meier back east in the interests of the Columbia river power project the president of the senate will again take over the reins of government. Marks is popular here and his friends will be glad to see him again.

**Marks is a holdover senator** and will not be up for reelection at the 1932 election. But if he were, there is little doubt but he would be returned to the upper house with the entire support of Linn county. There is also much talk of late to reelect Marks as president of the senate for the 1933 session.

**Several filings were made** with the secretary of state yesterday for political offices. Charles C. Hulet, master of the state grange, as was forecast some time ago, filed for republican nomination for congress, to replace Willis C. Hawley. **Senator Schulmerich** of Washington county was the other one to file for the primary election. He is seeking reelection to the senate for another four years. He served during 1929 and 1931 and prior to that time had been a member of the lower house from his district around Hillsboro.

# DISEASE DECREASE NOTED FOR COUNTY

## Diphtheria is Below Half Of 1930 Total; Other Shrinkage Shown

Three of the more serious communicable diseases, diphtheria, smallpox and tuberculosis, decreased in the number of cases occurring in Marion county in 1931 under 1930, the annual report of the county health department reveals. Diphtheria cases fell from 41 to 20, smallpox from 12 to 10 and tuberculosis from 46 to 35.

Deaths from all communicable diseases decreased in number from 83 to 74, although in some instances there were increases. Dr. Vernon A. Douglas, county health officer, yesterday offered two reasons why some diseases showed an increased number of cases and deaths. In certain instances, such as venereal, report-

# "Sure, Sailor.. I used to Roll my Own"

THEY TASTE BETTER... THEY'RE PURE...  
THEY'RE MILDER... They Satisfy

**"I CARRIED the makin's for years. Got so I could roll 'em single-handed. But there's no real economy in it. 'The way I figure is this: A fellow don't spend so much on himself but what he can afford to enjoy the best in smokes. 'Myself... I smoke Chesterfields. They cured me of rollin' my own. First off, you get better tobacco. 'I'm not knockin' the makin's... but it stands to reason Chesterfields wouldn't be where they are today if they didn't give you the finest tobacco. I like their aroma. 'Plenty of Turkish in Chesterfields... and you don't get that in the makin's.**

And there must be something about the blend, too... you can't get a milder, better taste... not anywhere! "Got a right good opinion of myself, but I don't figure I'm as clever as those cigarette-making machines. Every single Chesterfield is round and filled right... beats anything you can roll yourself. Besides, it smokes cooler and lasts longer. I've tried both, so I know."

Nothing amateurish about Chesterfield's Radio Program, either! Nat Shilkret's Orchestra and Alex Gray, popular soloist, entertain you every night except Sunday, at 10:30 Eastern Standard Time, on the Columbia Coast-to-Coast Network.
