

# COUNCIL VOTES FUND FOR FIELD

## Legion Junior Team to Play On City Grounds; Other Business up

WOODBURN, Jan. 20.—Fifty dollars in a lump sum were voted by the city council to be given to the local American Legion post for the improvement of the city baseball field at a meeting held in the council chambers of the city hall Tuesday night. The park is to be used as home field for Woodburn's junior Legion baseball team. The seniors may also put a team into the Cascade League.

The Legion has agreed to put up a nine-foot fence around the park, repair the grandstand, take out certain trees that hinder the effectiveness of the ground and lay out the diamond. The council was asked to provide money for plowing, discing, leveling and rolling the field and a water line to the field. This the governing body refused to do. The Legion wants a three-year prior right to the grounds.

One of the many long discussions of the meeting was concerning the advisability of having certain persons on the west side of Corby street connect onto a sewer pipe on Lincoln street, which was originally constructed

to serve another sewage district. Persons living on the west side of the street do not want the sewer, as they run their refuse through cesspools and septic tanks and connect directly with the slough nearby. The city will procure an engineer to decide if the Lincoln street sewer has enough capacity for the new proposed line if those who petitioned for such a line pay for it.

The council decided to pay a gravel bill presented by the county at the last meeting.

Mayor W. H. Broyle explained the workings of the charity board here. He also pointed out that Woodburn is on the county roll for \$320 of the unemployment fund. Already \$82 have been received. The county insists that the roll of persons aided by this fund be approved.

Councilman Espy reported that some power poles on Wilson street are unsightly and some of the equipment is unnecessary. The power company will be requested to put the poles in their right places in relation to property lines. The street width was changed from 50 to 40 feet, one reason for the discrepancy.

A letter from the light company was read, saying that that company will attempt to give satisfactory service hereafter. At the last meeting of the council ten per cent of the bill was deducted because service during the month of December was unsatisfactory.

The signs proclaiming that "Turns are prohibited on front street" came up for discussion. Some temporary signs put up are too small. It was the opinion that the signs be twice or three times larger.

The matter of choosing the best

Physicians had to remove the money. Before it was removed Tuesday the little fellow didn't seem to mind it at all. He played around and drank his milk as usual. He could not, however, swallow solids.
