ual conditions in their home town that they would not take a great deal of money for. The enormity of unemployment and actual want existing in the city has been a revelation and the general feeling seems to be that the workers in this plan are all more satisfied with his or her individual lot, be what it may, than they were before the canvass started.

Human Nature Study

"We can well recommend that any man or woman, who wants an inside view of a cross section of life signify their willingness to help in this job promoting campaign by either registering at the chamber of commerce, or with any of the 15 captains.

The executive committee recognize that to many people the idea of the Work Promotion plan was probably presented cold, or that the wife had not had opportunity to discuss the matter with her husband. In many of these cases, after the matter has been duly thought over and the true possibilities of the plan have become apparent, decisions will be arrived at to go ahead with some sort of work, and the employment of labor.

"These people the committee urges not only to go ahead with the work as soon as possible, but also to call the chamber of commerce and record their pledge. It is only by mass effort and individual realization that his pledge whether small or large, is only one of several hundred of similar pledges, that the greatest success can be realized."

MASONIC MASTERS GUESTS IN SALEM

District Association Holds Session; Washington's Bicentennial Talked

The Salem Masonic lodges were Wednesday evening hosts to the recently organized Masters and Wardens association of the Salem district. This district comprises the Masonic lodges within a radius of 30 miles of Salem, 12 in number, and they were represented last night by nearly 60 of their past masters, masters and wardens. The meeting was held in the club rooms on the fifth floor of the Masonic temple.

After a half hour spent in greeting old friends, the meeting was called to order by C. J. Espee of Donald lodge, president of the association. A short business session was held during which a number of matters of special interest to Oregon Masons were discussed.

Following the business session, the group was entertained by Lyman McDonald in character songs and readings, after which the grand master of the Oregon jurisdiction, Herbert L. Toney of McMinville, gave an address of great interest to those present. He touched upon many matters of the Grand Lodge, and gave some advance information of events and plans for the future.

Of interest to the general public is the plan for a great celebration to be held in the Portland auditorium February 20 in commemoration of the 200th anniversary of the birth of George Washington. This will be a great occasion, and an appropriate program is in the making. There is no doubt but the auditorium will be packed for the event. The grand master was warmly applauded at the close of his address.

The next meeting of the association will be held in Salem on the evening of May 18, when it is expected that a still larger audience will be present. All those attending Wednesday night's meeting were enthusiastic concerning the new organization and the place it bids fair to make for itself in Masonry in this district.

Chimneys Need Cleaning, Says Chief Hutton

The present should be chimney cleaning time Harry Hutton, Salem fire chief, declared yesterday in commenting on the large number of chimney fires to which the department recently has been called. Yesterday morning a chimney blaze occurred at 935 Fifth street and on Wednesday the department answered four such calls.

The popular idea of cleaning a chimney by burning it out is false, according to the chief. Burning out a chimney only prepares it for a more serious fire later. A chimney properly may be cleaned by scraping the flue bare with chains, he said.

WARNER BROS. CAPITOL Today—Jack Holt in "Fifty Fathoms Deep."

WARNER BROS. ELISNORE Today—James Dunn in "Over the Hill."

THE GRAND Today—Douglas Fairbanks, Jr. in "I Like Your Nerve."

THE HOLLYWOOD Today—Tom Tyler in "Partners of the Trail."

A large interest is being shown in the play "The Thirteenth Chair" which will be produced tonight at the Salem high school auditorium with members of Willamette university faculty taking the roles. Among those to appear in the cast is R. R. Hewitt, dean of the law school, Prof. W. C. Jones, Prof. and Mrs. Herbert Rahe, and Prof. Cecil Monk.

Jack Holt in his latest thrill picture, "Fifty Fathoms Deep," opens today at the Capitol. It's a deep sea drama with lots of red-blooded drama, thrilling suspense and romance, the underwater scenes of a rescue of one diver by another being intensely exciting. Loretta Sayers, Richard Cromwell and Mary Doran are also in the cast.

Hollywood rumor has it that the screen is due for a wave of human interest stories. Not impossible romance, but stories that deal truthfully with the softer sentiments of the heart as experienced by real, human, flesh and blood people. The first of these vivid incidents of life was "Bad Girl," and now is "Over the Hill" opening today at the Elsinore.

"Over the Hill" is the film that returns to the screen that idol of silent days, Mae Marsh, who retired to private life at the height of her popularity, 12 years ago. Henry King, whose directorial successes include "Merely Mary Ann," "Lightnin'" and "To Have and Have Not," directed the production.

'OREGON WILDCAT' FILES FOR SENATE

Robert Gordon Duncan Says Business Must be Freed, Rights Given Back

Robert Gordon Duncan of Portland, self-styled "Oregon wildcat," filed in the state department here Thursday his declaration of candidacy for the republican nomination for the office of United States senator at the primary election.

"To restore confidence in our government, we must unshackle business," Duncan's statement read. "We must restore the rights and privileges of the people. We must free men from the galling yoke of monopoly and give the plowboy a chance to raise above the plowhandles. Also we must abandon prohibition and eliminate the grafters now grown to appalling numbers under the system of oppression used by the privileged few to enslave the many."

"Concentration of wealth and power in the hands of a few men has brought upon the country the wage slavery foreseen by Abraham Lincoln at the close of the Civil war. Therefore, it is the issue of 1860 over again. Monopoly has filled our cities with silent factories, our country lanes with penniless tramps. The chain system has been weighed and found wanting."

"To save the republic from civil strife and bolshevism we must return to the teachings of our forefathers."

NEW DISCOVERIES CONFIRM VIRTUES OF BRAN IN DIET

Supplies "Bulk" and Vitamin B for Constipation; Also Iron for Blood

For ten years, now, millions have found Kellogg's ALL-BRAN a safe, pleasant way to overcome common constipation—with the headaches, loss of appetite and energy that so often result from this condition.

Recent laboratory tests show that ALL-BRAN supplies "bulk" to exercise the intestines, and Vitamin B to help tone the intestinal tract. In addition, ALL-BRAN contains twice as much blood-building iron, by weight, as beef liver.

This "bulk" in ALL-BRAN is much like the "bulk" in lettuce. Inside the body, it absorbs moisture and forms a soft mass, which gently clears the intestines of wastes.

Special cooking processes make ALL-BRAN finer, softer, more palatable. It is not habit-forming.

Think how much better it is to enjoy this delicious cereal than to take endless pills and drugs, which often lead to harmful habits.

Two tablespoons daily—in serious cases with every meal—are usually sufficient. If your intestinal trouble is not relieved this way, see your doctor.

Serve ALL-BRAN as a cereal with milk or cream, or use in cooking. Appetizing recipes on the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.
