MANAGERESS

Local boys who made good are as plentiful as fallen leaves in Val Ambrose, but here's a local girl who made the grade and rose to be boss of her town. She is Mrs. May J. Priestley, beautiful matron of Fort Pierce, Fla., who has been named City Manager, to succeed E. G. Gustafson, for whom she once worked as secretary.

SOCIETY GIRL SENTENCED

Made in the courtroom at Flint, Mich., this photo shows Helen Joy Morgan (seated), convent bred society girl, being comforted by her mother after she had heard the judge sentence her to twenty years' imprisonment. Miss Morgan was found guilty of the murder of her garage mechanic lover, Leslie Casteel. The mother, though stone deaf, followed the evidence all through the trial with the aid of a portable amplifier.

Chamber Accomplishes Much in Year; Reelect Earl Adams President

SILVERTON, Jan. 21—The annual meeting of the Silvertown chamber of commerce was held Wednesday night at the high school with the home economics classes preparing and serving the dinner which preceded the business meeting. Tables were lovely with daffodils and pussywillows.
Earl Adams, president, thanked those who assisted him during the past year and gave a resume of the year's work. Among the things accomplished by the chamber of commerce were the persuading of the state highway department to take over the Silver Creek Falls area as a state park. June Brake was particularly instrumental in this, according to Mr. Adams. Assisting Mr. Drake on the committee were H. B. Latham and R. G. Allen.

Dr. P. A. Loar, chairman of the roads committee, had been very active. Mr. Adams said. He had not only worked on the roads committee, but on the state committee working against stream pollution.
The 1932 state grange convention has been secured for Silvertown and this will mean from 3000 to 6000 visitors at Silvertown for close to a week's time.
Spring openings, the talent contest which was headed by Hal Campbell, the publicity committee's work, the community picnic, the Boy Scout drive, the poultry show taken care of by Warren Craibree, George Hubbs and Ernest Starr, with the assistance of the local Smith-Hughes boys, and the Tuesday night broadcast were all touched upon by President Adams.
Following Mr. Adams' very interesting report, election of officers took place. Mr. Adams, although he tried to refuse the office again, was unanimously elected. Ernest Starr was elected vice president; George Hubbs, re-elected secretary; C. G. Rue, re-elected treasurer. The two retiring directors were Norris Ames and Alf O. Nelson. Two new directors chosen were Alf O. Nelson and M. G. Gunderson.
W. A. Heater, of Union Hill, was present and spoke a few words, particularly complimenting Silvertown chamber of commerce upon its visitation in country communities and the good will these trips brought.
Mr. Olsen of Albers Bros. was introduced by Merlin Conrad, whose guest he was. Mr. Olsen announced a poultry feeding school to be held at Silvertown sometime in February.
Dr. P. A. Loar, speaking on the stream pollution situation, said that "the laws of today are against stream pollution and that no one has a right to dump sewage into any creek, but the public opinion is not yet educated sufficiently to bring a conviction. But Silvertown should do something toward getting some plan underway or a sinking fund started to care for a sanitation plant when the time comes that we will be forced to have it."

Salient Facts of Mayor's Annual Message Recalled

WEST SALEM, Jan. 20—A number of West Salem citizens have suggested that a resume of the mayor's annual message to the city council might have a good effect on the public morale in these trying times, the encouraging facts set forth in the message not being generally understood by the citizenry it is thought.
Among the optimistic statements made by Mayor Newgent are the following: The report of the city auditor indicates that city finances are in good shape with the exception of the street department fund. A sinking fund was created during the last year to take care of bonds as they become due. Sewers, streets and sidewalks are in comparatively good condition and the water department is in the best condition of its history. The small number of criminal incidents reported speaks well for the city police department. Fire protection is superior to what it has ever before been, all hydrants now being kept open in case of need. Sanitary conditions, though not perfect, are far ahead of last year's record.
Mr. Newgent stated that West Salem is called upon to bear a burden rarely falling to the lot of so small a city in that its citizens expect a standard in various directions similar to that of its big

ONCE CRIPPLED WITH RHEUMATISM

Now a Lively, Spirited Woman Happy, Cheerful and Gay

What A Victory For Her—and For Allenru
It's the bright woman who never gives up—she makes up her mind that rheumatic pain and agony isn't going to waste her lifetime of misery and unhappiness.
Blessed with common sense, this woman didn't waste but little time fooling with makeshift remedies which bring relief; to be sure—but still keep you a prisoner in the old arm chair—what foolishness.
Clever: this woman was—she learned that uric acid is a poison—that it settles deep in joints and muscles—she learned that these vicious, deep seated deposits were the cause of her rheumatic agony and she found something—
TO REMOVE THE CAUSE
She read about Allenru in the newspaper. This quick acting prescription she learned was positively guaranteed to start uric acid poison leaving the body in 24 hours—her hope increased as she read further that Allenru would cause pain, agony, distress and swelling to leave in 48 hours—this also was guaranteed.
Keen minded she was—she knew that Allenru was the remedy she wanted and she purchased an 85 cent bottle—her story ends here.
When poisonous uric acid left her joints and muscles she was happy once more—lively, active, cheerful again.
Perry's Drug Store guarantees Allenru—so do leading druggists everywhere—money returned if it fails. Adv.
