The unbroken bodice line from neck to skirt seam is most becoming to the larger woman, and the pointed seaming adds length and detracts from hip width. SYRUP **GLAZED HAM**

MAX-I-MUM

A professional glaze may be had on a ham if you pour about a cupful of Max-i-muM syrup over it during the last half hour of baking. To prepare a raw ham for baking place it in cold water, heat slowly and simmer gently until tender, allowing 25 min. to the pound. Remove the rind, place the ham in an open baking pan, and pour over it enough syrup to coat the outside. Bake for about 30 min. in a medium oven (350°F.) Add just enough water in the bottom of the pan to keep the syrup from burning. This will give that beautiful glaze that every 'well-dressed' ham should wear.

Assist Elimination, and Iron for Blood One of the functions of Vitamin B is to help tone the intestinal tract and promote elimination. Now, lab oratory experiments show Kellogg's ALL-BRAN contains this valuable

vitamin. In addition, ALL-BRAN brings a plentiful supply of "bulk" — which provides the "ballast" needed to exercise the intestines.

This "bulk" in ALL-BRAN is simi-lar to that of lettuce. Inside the body, it is different from the way you see it in the package. It ab-sorbs moisture, and forms a soft mass which gently clears the intes-tines of wastes. Special cooking processes make ALL-BRAN finer, milder, more palatable.
