Pattern

By ANNE ADAMS
It's a adorable little frock with matching bloomers, and came right over from Paris in yellow linen and one pearl button for trimming. You'll be amazed how easily and inexpensively it can be made, and if you do not care for linen, cotton, broadcloth, percale, plaid, dimity, or gingham will be equally attractive. The dress is just perfectly styled for fullness and freedom as well as chic.

Pattern 2294 may be ordered only in sizes 4, 6, 8, 10. Size 4 requires 2 3/8 yards of 36-inch material.

FEATHERED CROWNING GLORY

The very latest vogue to be taken up by the ultra smart women, who is always a stride ahead of the fashion, is the feather wig. Chic New York women have discovered that there is no type of hair wig comparable to that made from feathers. Though the new fashion of coiffure sounds fantastic, according to Louis Farnes, noted coiffeur and originator of the plumage idea, it is very practical. The wig takes only a moment to adjust, weigh less than an ornate, look very beautiful, and, most important of all, look as well at the end of a party as they do at the beginning, being almost impossible to rumple. There are types and shades of the new coiffure to suit every complexion and shape of head and face, a few of which are shown above. No. 1 is called "African." It is of brown curled ostrich feathers. It gives the effect of ringlets against the head. No. 2 is named the "Phantasy." It is of bright green hackle feathers, with a double question mark at the back. No. 3, appropriately named "Claire de Lune," is a beautiful creation of pearled swan plumage and white hackle, conveying a platinum blonde effect, only more charming. No. 4, titled "Fascination," is of black burnt goose feathers and looks exactly like a wind-blown bob, except that it features a little fringe of soft curls on the forehead.

More Signs Of Spring Are Evident

RICKNEY, Feb. 29—Signs of the arrival of spring are more evident each day. The anemones and daffodils are blooming. The children are hunting jumping ropes and disfiguring walks with the age-old spring game of hop scotch. The grown-ups are making early gardens and the wild geese are preparing to migrate northward. A large number of geese spend the winter in the vicinity of the cottage farm, which is a game preserve. Thursday they maneuvered the greater part of the day, apparently trying to persuade some of those that were noisily protesting that it was time to start, while the main flock circled around toward evening and settled down. When last seen the advance guard was still flying in a northerly direction.

Brush Creek residents are boasting that they do not believe any other district has more varieties of flowers in bloom at the present time and is found in the lawns of Brush Creekers.

Among the flowers reported in bloom are crocuses, yellow jasmine, daffodils, violets, daisies, primroses, snowdrops, bluebells, Japanese quince, and rock cress.
