"ALL-BRAN LIVES UP TO REPUTATION" Her Constipation Overcome by This Delicious Cereal. If you are troubled with constipation, read Miss Bundy's enthusiastic letter: "I would like to congratulate the one who discovered ALL-BRAN. It really does live up to its reputation when it is said to 'relieve constipation.'" "I used to feel poor all the time—just down and out—and after reading an advertisement in a magazine about ALL-BRAN I got a box. It has evermore helped me, and it is not hard at all to eat." Miss Mary Bundy, Bonnetville, S. C. Laboratory tests show ALL-BRAN brings two things needed to correct common constipation: "Bulk" to exercise the intestines; Vitamin B to help tone the intestinal tract. ALL-BRAN also furnishes iron for the blood. The "bulk" in ALL-BRAN is much like that of lettuce. Within the body, it forms a soft mass. Gently, it clears the intestines of wastes. How much safer than taking pills and drugs—so often harmful. ALL-BRAN is not habit-forming. Two tablespoons daily will overcome most types of constipation. If your interesting trouble is not relieved this way, see your doctor. Use as a cereal, or in cooking. Recipes on the red-and-green packages. All grocers. Made by Kellogg in Battle Creek.

EARLY ACTION UPON HIGHWAYS PLANNED

Want all Under Contract by June 1, Indicated by Engineer Baldock

Strenuous effort will be made to get Oregon's highway construction program for 1932 under contract by June 1, R. H. Baldock, state highway engineer, announced in a letter prepared Thursday for the consideration of Leslie J. Scott, chairman of the state highway commission.

Baldock's announcement followed closely upon advice from Portland that a number of Oregon banks had agreed to subscribe for \$750,000 of Oregon highway bonds. These bonds will run for a period of six months, and will draw interest at the rate of 6 per cent.

The most important projects included in the 1932 highway construction program include the proposed widening of the Pacific highway between Salem and Brooks, realignment of the Aurora-New Era section of the Pacific highway, and the new bridge over the Santiam river at Jefferson. The cost of the widening operations on the Pacific highway between Salem and Brooks was estimated at \$150,000, while a similar amount will be spent on the new Santiam bridge. The Aurora-New Era realignment will cost approximately \$85,000, engineers estimated.

Plan for Widening Is Being Prepared Baldock said that plans for the widening operations were now being prepared, and probably would be completed within the next few weeks. Plans for the new bridge virtually have been completed. The bridge will be of steel construction. The Aurora-New Era improvement is classified as heavy construction, and covers a distance of two miles.

Elimination of 10 employees at the Salem shops of the highway commission was announced by Baldock Thursday. He said this action would save approximately \$15,000 a year. Further economies will be adopted at the shops of the commission maintained at Klamath Falls, LaGrande and Coquille. J. R. Bishop, maintenance and equipment engineer for the commission, is now making a survey of these shops in an effort to determine how many employees can be eliminated.

Baldock said other economies were under consideration, but that these would not be announced until such time as he has had an opportunity to confer with Chairman Scott and other members of the highway commission.

Whether there will be any additional eliminations of employees in the engineering division of the highway department will not be determined until a survey now in progress is completed. Salary and wage reduction of highway department employees will go into effect April 1. These reductions range from 20 to 12 1/2 per cent and will save approximately \$200,000 annually, based on the present payroll.

ADAMS INHERITANCE TOTAL REAPPRAISED

According to stipulation filed in probate court, the estate of the late L. J. Adams, Silverton attorney, is appraised now for inheritance tax purposes at \$91,110.78, instead of the original appraisal of \$69,940.33.

The stipulation which was filed between the state treasurer, and Alfred L. Adams and Frances Adams Reynolds, executors of the estate, states that the change has been agreed upon by parties concerned because of certain debts made by Adams before his death which were not intended to become active until after his death. It is held that the properties conveyed under the deeds were conveyed with the intention that the grantees should not have possession of the property until after the death of the grantor.

Under the stipulation it is agreed that real estate value decided to Louise Adams is placed at \$10,000, and the amount of indebtedness cancelled for Alfred L. Adams is placed at \$5000. The stipulation was entered into, it is stated, to avoid expense of further reappraisal. Inheritance tax to the state is placed at \$1367.25.
