Kellogg Company submitted it to the Medical Arts Laboratory of Philadelphia, which found it so rich in food value that every package now carries a certificate. This means that mothers can now know definitely that their children are getting a well-balanced food whenever they serve the new Kellogg biscuit-extra rich in miner-

als, vitamins, proteins. Kellogg's WHOLE WHEAT Biscuits are "pressure-cooked" by a special process that bakes in the delicious flavor. At the same time, it retains all the valuable food elements of the

whole wheat. The biscuits are much crisper and tastier because they are toasted a tempting brown on both top and bottom-not just one side. They are baked in a more convenient, eco-nomical size. Two biscuits just fit the cereal bowl—and you get 15 to the package.

Identify this improved cereal by the red-and-green package. Made by Kellogg in Battle Creek. Services every Sunday evening in the Nelson hall, 381 Chemekets street. On March 13th the lecture topic will be "The Good Samaritan." A public circle
