

BUTTER SHORTAGE NO LONGER EXISTS

Improvement in Make Seen Over Last Week; Eggs Appearing Weak

PORTLAND, March 15—(AP)—There was no change in the general dairy products market for the day.

There is no longer shortage of offerings; in fact in spots the trade suggests ease. Butter prices are still somewhat mixed with some of the big retail shops selling at prices that are scarcely as high as quoted on the open wholesale market.

There is still considerable weakness underlying the market for eggs both here and at other leading market centers. There was no change in local open prices for the day.

Quality of late arrivals of turkeys is not nearly so good and a rather slow trade is suggested along the wholesale way even though no change is reflected in the price list.

Prices are generally firm in the market for live chickens with a real shortage of practically all sorts but especially light and heavy weight sorts. Springs are nominally quoted.

Primary markets continue to show a firm price list for apples despite the French embargo. Late advance of a nickel for wineapples and a dime for delicias by Yakima is being maintained by Hood River in holding Newtowns on a stiff basis.

First full carload of Roseburg Broccoli of the season, which followed one to Seattle, is here, and to the same firm. Offerings are more liberal. Prices show a spread of \$1.00 to \$1.25 a crate. Some are "dinky" crates.

Rather good trade is reflected for country killed meats with hogs up to 7-7-1/2 for best light blockers while best old crop lambs are 13-14c and springs nominally 20c lb. Vealers are about steady at a dime for best.

WHEAT VACILLATES, CLOSES FIRM EGGS DOWN ANOTHER CENT HERE

Securities' Weakness is Principal Cause of Bearish Action

CHICAGO, Mar. 15—(AP)—After some vacillating backward and forward action, wheat made a vigorous late upturn, and finished with losses about overcome.

Transient weakness of securities was largely responsible for the temporary bearing action of wheat, but brisk export demand for wheat from North America had a tonic effect, purchases from Canada and the United States being estimated as high as 2,500,000 bushels.

Wheat closed unsettled at the same as yesterday's finish to 3-8 lower, corn at a shade decline to 1-4 advance, oats 1-8 off to 1-8 up.

Buyers Paying 8 Cents On Mediums and 9 For Standards

Eggs dropped another cent on the market here yesterday, with buyers paying eight cents on mediums and nine cents for standards.

While eggs are hitting a give-away deal, hay is showing considerable strength, with the local market boosted a dollar a ton, to \$12 and \$13. Barley and oats continue steady, but offerings in wheat are few, with the market extremely quiet.

Following the boosted price in hogs, dressed hogs are quoted a half cent higher, to \$6.50 a hundred.

ONIONS CLIMB TO 56 PER HUNDRED

LABISH CENTER, March 15—The almost unbelievable price of \$6.00 a hundred for onions has been reached and one grower disposed of his remaining crop, about 1000 sacks, at that price this week. This is the highest price received for a good many years, although they reached the \$4.00 peak three years ago.

Growers are now actively engaged in preparation for this year's crop, with some plantings already reported.

A number of farmers here who still have some onions left have been keeping shot-gun vigils since last Thursday night when thieves entered the Harry Boehm onion house through the ventilators and made away with a number of sacks of untopped onions. Footprints indicated that the intruders carried their spoils a good distance before loading onto their vehicle.

Late Recovery Eliminates Some of Losses and Reduces Others

NEW YORK, Mar. 15—(AP)—Selling pressure relaxed in the stock market today, but there was insufficient buying power to give much tone to the late recovery which reduced or eliminated earlier losses.

Gains and losses were so evenly distributed at the close that the final standard statistics-Associated Press composite was unchanged. Nevertheless, fractional declines prevailed in a representative list of leading industrials.

Rails were heavy most of the day, but steadied toward the end. Turnover dropped to 1,471,489 shares.

Chesapeake & Ohio made a new low for the year and, with Santa Fe, was off nearly 2 points net. Union Pacific was erratic, but finished fractionally higher. Canadian Pacific rallied 1 3-8.

Preferred stocks of U. S. Steel, Bethlehem and Jones & Laughlin sagged, although non-ferrous were particularly active. Common shares of the first two were off about half a point net which was likewise roughly the extent of the decline in Westinghouse, Union Carbide and North American.

Kreuger & Toll after selling at 3 1/2, fell back to 2 1-8 where it closed unchanged. International Match Preferred returned a small gain. Eastman Kodak held firm.

"The Official System" as Adopted by Leading Authorities by E. V. SHEPARD

The protracted controversy between Messrs. Lenz and Culbertson has been sufficiently acrimonious and widely broadcast to keenly interest some twenty millions of our citizens in the final outcome, and what the test will or will not prove. Primarily who wins will depend upon partnership work, and luck. Even 150 rubbers may not equalize the strength held by the competing pair.

Experts' ability to correct subconsciously any weakness inherent in their set systems. As yet no perfect bidding system has been produced. Experts' ability to correct as they go cannot be taught. The great mass of players who that results will prove which system is the better, and prove it so conclusively as to leave little room for any alibi.
