KERR'S SPOTLIGHT PUZZLE TO BOARD

Purchase of a \$75 spotlight for the state car used by Dr. W. J. Kerr at Oregon State college is a problem bothering officials at the statehouse. The purchase was made last fall from a Portland auto concern and the spotlight was installed on the Cadillac car driven by the president's chauffeur.

The bill was sent to the higher education department where the bill rested until recently when it was sent on to the secretary of the board of control for approval. William Einzig, state purchasing agent, has not yet approved the bill and the Portland concern which sold the spotlight is urging payment.

The spotlight is a dual one, one light being thrown in front of the track of each front wheel. It is controlled so the lights are thrown as the wheel is turned.

Protest against the money spent has been made by certain members of the board of higher education. The item has not yet come to the attention of the state board of control.
