

FIRE SALE

The fine response to our sale the first two days of its progress assures us that the money to buy merchandise will come out of hiding when inducements, such as we offer, are laid before the people.

Today we have more merchandise to offer at astonishingly low prices. Every article in the least damaged by smoke or water is reduced far beyond the amount of real damage sustained.

Many articles not placed on sale for lack of time the first

days have now been set on our floors and marked down to make a quick disposal. Our aim is to clear our floors of all damaged goods so as to make room for workmen who are to paint and repair the building where damaged by fire.

A large shipment of mattresses, bought before the fire, has arrived and will be placed on sale at prices to compare with those partly wet or smoked. Look over the prices quoted below, there are many others but limited space forbids giving all in detail.

Wed. Morning, 9 a. m.
