NEW SHREDDED BISCUIT CERTIFIED FOR FOOD VALUE

Philadelphia Laboratory Certifies the Improved Kellogg's WHOLE WHEAT Biscuit

One of the greatest tributes to quality ever paid a food product is the fact that the Medical Arts Lab-oratory of Philadelphia now certi-fies every package of the new, im-proved Kellogg's WHOLE WHEAT Biscuit for food value.

These delicious biscuits are un-usually rich in proteins, minerals, vitamins and other important food elements. One reason for this, is the fact that the biscuits are "pressure-cooked"—a process that re-tains all the food value of the whole wheat. "Pressure-cooking" also bakes in a rich, tempting flavor that every one praises.

The new Kellogg biscuit has many velcome features. It is toasted brown on both top and bottom-not just one side. It is made in a new, convenient size. Two biscuits just fit the cereal bowl; and you get 15 to the package—which means added economy. Served with hot or cold milk or

cream, fruit or honey added— Kellogg's WHOLE WHEAT Biscuits are delightful and wholesome for breakfast, lunch, children's suppers. Easy to digest and very nourishing. Local grocers report that this improved shredded biscuit is meeting with hearty acceptance. It may be identified by the familiar redand-green Kellogg's package. Made by Kellogg in Battle Creek.
