

SHORTAGE IN MAKE OF BUTTER SHOWN

Cold Weather Cuts Supply Of Milk; egg Market Changes Lacking

PORTLAND, April 22 (AP)—There continues an unexpected shortage in the make of butter at Pacific northwest points.

Cold weather has put a crimp into the increasing flow of milk into creamery channels.

There was no change in egg market conditions for the week-end. Prices were unaltered in all positions.

Market is still surprisingly loaded with ripe apples that need a home badly.

There appears determination on the part of the Willamette valley trade to force offerings of spring lambs on the market.

Market for strawberries showed a somewhat better tone for the weekend with reflections of improved weather.

Asparagus was in small supply and sold rapidly at \$1.00 bunches generally.

Spinach was firmer. A load of Seattle stuff sold 90c with most of the best local \$1 orange box.

Rhubarb was steady around 50-55c for 30c bunches with 20c doz. bunches with chain stores featuring those at a very low price.

MILD RECOVERY IN STOCKS OBSERVED

NEW YORK, April 22 (AP)—Undiminished by sharp declines in the previous session, stocks accomplished a mild recovery today.

Volume was reduced but absence of important carry-over selling encouraged a firmer tone and final prices of most leaders represented small advances.

Wall Street was much more interested in the Washington short selling inquiry than in the market itself.

A dribble of offerings during the first half hour scooped out new low levels for a few prominent issues, including U. S. Steel, American Can, Borden, General Foods, Socony-Vacuum and Standard Oil of New Jersey.

Stocks able to show better than fractional net improvement included American Telephone, Coca Cola, Santa Fe, Corn Products and Auburn.

CONTRACT BRIDGE "The Official System"

How Many Tricks Can B Win at Spades? The following hand required both good bidding and excellent strategy to obtain the maximum reward possible:

♠ Q853 ♠ 742 ♠ 106 ♠ KJ73 ♠ AK96 ♠ AJ72 ♠ AK84 ♠ AK84 ♠ AK84 ♠ AK84

Sitting second hand A made an opening bid of 1-Heart. Opponents had nothing to say, but B jumped the declaration into 4-Spades.

To win all except one trick, thus fulfilling his small slam contract, B led his 2 of diamonds. Y had to win the trick, and lead his Q-8 of spades up to B's A-7.

At first sight one might think that Y could have discarded in some way to avoid the end play that B made, but careful study of the holdings and possible opportunities for discarding will show that B's play was fool proof.

In case Y trumped, instead of discarding upon the heart or the club leads, B could have readily picked up Y's trumps, just as he did in the end.
