

REDUCTION IN MILK PRICE IS FORECAST

Action Expected May 1 Will Disrupt Market Plans, Observers Claim

PORTLAND, April 22 (AP)—Although increasing supplies of butter continue to be reflected in the Portland territory, trade conditions appear more or less steady.

Rumors are current in the trade that the cooperatives will cut the price of milk May 1. Those who say they are close to the situation believe the result will be disruption of the entire milk marketing arrangement, with a direct effect on the butter trade structure and price.

Storage movement continues to gain along with the increasing production of butter, taking practically the entire surplus.

Selling of eggs by unattached producers at 1c or more below the prices established by the co-ops keeps the price list down generally and creates adverse business sentiment locally.

Movement of chickens to market is slower considerably with just sufficient demand in sight to keep the trade clear. Prices in general are unchanged for the day.

Spring lambs are showing a general up in the price for country killers because of the result of very liberal offerings.

There is some showing of weakness with slight price recession in the market for country killed calves. Receipts recently have shown an increase with practically no trading surplus.

Further fractional price reduction has been forced in the market for asparagus with increasing stocks from the mid-Columbia as well as a fair supply from local sources.

Prices appear about steady in the market for California strawberries with bulk of the sales around \$2.00-2.15 for 20s. Quality in general is considered favorable.

Demand for hothouse tomatoes is reactionary with the principal competition being the lower priced Mexican. Extra fancy hothouse is now quoted around 30 cents with fancy 25c and choice 20c lb. Little of it really comes up to grade.

Riverview Youth Leads High School In Grade Average

RIVERVIEW, April 27 — Harry Jones, grandson of Mrs. Anna Holt, underwent an appendix operation in a Salem hospital last week and is reported getting along fine.

Melvin Holt of Riverview received the highest grade average for the fourth time this year in the Seio high school work. He is a freshman and holds the highest grade average for the year not only in his class, but in the whole school.

Mr. and Mrs. Orvil Shelman are expected home soon from Yoncalla where Mr. Shelman has been employed for some time.

Three Teachers to Be Continued Next Year at Rickreall

RICKREALL, April 22—At a special school meeting it was voted by a large majority to continue with three teachers in the high school instead of cutting to two as had been considered. It was decided the amount saved would not be commensurate with the loss of efficiency. Other matters of economy were discussed but action was left to the discretion of the board of directors.

Teachers for the coming year will be hired soon.

Neal Prince Injured While at Field Work

CLOVERDALE, April 22 — L. Swenson of Los Angeles is a visitor at the home of Mr. and Mrs. Charles Cummings where Mrs. Swenson has been visiting her parents the past two months.

Neal Prince, while ploughing, was struck in his side with a plow handle which is causing him a great deal of pain.

Mrs. W. Anderson returned from Portland Monday where she has been for medical treatment.

KLUCKNER QUITE ILL

SENA, April 22—Friends here of Joseph Kluckner of Portland will be sorry to hear of his serious illness at his home. Mr. Kluckner has been afflicted with palsy for many years and recently had a severe case of influenza. Mrs. Kluckner was formerly Miss Cornelia Phillips and a daughter of an old pioneer family of eZna.

GIRL TO KELLYS

NORTH SALEM, April 22—Mr. and Mrs. Russell Kelly are the parents of an 8 pound girl, born April 22, at their home here.

RAINY DROUGHT AREA BEARISH UPWARD TREND OF STOCKS HALTS

Claim Expected Crop Hundred Million Bushels More

CHICAGO, April 22 (AP)—Big breaks in grain prices today followed heavy downpours in drought areas of wheat territory.

It was estimated by some unofficial authorities that as a consequence of moisture relief, the United States 1932 wheat yield would be 100,000,000 bushels or more in excess of the latest government forecast. A maximum fall of 3-4 cents a bushel pitched the wheat market to below prices current immediately after the April official crop report had indicated sensational damage and a probable 1932 domestic winter wheat harvest of only 455,000,000 bushels.

Corn collapsing with wheat, reached the bottommost quotation since 1919, and was the lowest since 1919. Rice outside the present season's low price record.

Wheat closed shaky, 2-5-8 to 3-1-4 under yesterday's finish; prices 1-2 to 1-7-8 down; oats 5-8 to 7-8 off.
