ability for what happens; if he lets things muddle along, no matter the outcome, the board, not the administration, will receive most of the blame.

McKay, Gregory

Both Strong

Douglas McKay for mayor has the support of the downtown group in Salem. An organization headed by August Huckenstein and Ray Basset will draw considerable support from business friends of McKay, from the anti-Legion men and from the anti-Gregory group. Nevertheless Mayor P. M. Gregory, in his race for reelection is a strong candidate. The Hollywood group which brought him out before is bound he shall be reelected and is working hard. The Twelfth Street community club is said to be strongly behind Gregory and both these organizations can be counted upon for the house-to-house canvass which means so much in a campaign.

One hears little talk on candidates for the state legislature from Marion county. Old-timers from Frank Settlemier, three times in the house and well-known, has a good chance to repeat and the same feeling is held toward Romeo Goulet, incumbent. Frank Davey of Silverton, speaker of the house 25 years ago, is exceedingly well known in state affairs and a former legislator, has many friends who are working hard for him. The tax league organization is to back Ronald Jones. Lake Labish land owner and celery shipper. Otto K. Fautus of Salem made a good race two years ago and has strengthened his connections by two years additional legal practice. Probably Mrs. Hannah Martin, only woman in the race, has done the most active campaign work of anyone in the field. Dave Pugh of Salem, a late entry, has his friends and S. A. Harris of Gervais in distributing cards over a wide territory. County and City Races are Quiet

The courthouse races for commissioner, for sheriff, for recorder, for assessor, draw little public attention this far.

H. R. Bosshard for city recorder and Lester Jones are both active in their campaign to unseat Mark Poulson, incumbent. The latter is doing little campaigning but is staying in his office and tending to the daily routine. Some of the aspirants for the council are making house-to-house canvasses; in general the race for aldermanic honors is the keenest in the city although it attracts little comment save in the ward in which the candidates are running.

Editor Appeals Libel Judgment

MEDFORD, Ore., April 30.—(AP)—Attorneys for Earl H. Fohl, editor and publisher of the Pacific Record Herald, a weekly, will appeal to the state supreme court from a circuit court jury verdict awarding Roy Parr, game warden, \$15,000 in a libel action. A new trial of the libel action was denied by the circuit court today.

EX-KAISER MAY RESIDE IN U. S. TERRITORY

Following press dispatches revealing that physicians attending former Kaiser Wilhelm, of Germany, in Doorn, Holland, suggest that an indeterminate stay in the West Indies would be extremely advisable, two civic organizations of St. Thomas, capital of the islands, have forwarded invitations to the exiled monarch offering him hospitality as their honored guest. Dr. Paul M. Pearson, Governor of the Virgin Islands, in forwarding copies of the invitations to the State Department at Washington, made it plain that any official steps in the matter must be initiated by that department. However, it is unlikely that the ex-Kaiser would be welcomed in the country that was once the theater of his glories. He is fairly well content at Doorn, where he leads the simple life of a country gentleman, keeping fit by working around his estate, chopping wood and engaging in other manual chores. Though it is still a firmly entrenched belief in Germany that Wilhelm would welcome a chance to return to the helm of state, the ex-Kaiser's attitude in the recent elections does much to brand the belief a fallacy. It is reported that had not Wilhelm vetoed the idea, both Adolf Hitler and President Paul von Hindenburg would have withdrawn from the presidential race and left a clear field for the former Crown Prince as the first step toward restoring the Hohenzollern dynasty. Though it is still a matter of conjecture as to the royal exile's reaction to the Virgin Islanders' invitation, it would be strange if he were to take refuge in a territory controlled by the United States, which more than any other allied nation is responsible for his being an "ex."

SANTIAM PROJECT COST IS LOWERED

Construction work on 3.4 miles of the South Santiam highway between Trout creek and the Upper Soda Fork section of the South Santiam highway will cost \$60,128 or \$30,632 less than the engineer's estimate according to figures determined by the state highway commission this week. There were more than a dozen bidders on the job; 60 men looked over the section with the view of placing bids.

The first two and one-half miles of the work will be heavy work but the remaining mile will be unusually light construction for a mountain grade.

Advocates of the South Santiam road at Albany are urging the highway commission to add \$30,000 to its program for the year on the grounds that the bid accepted was that amount less than the estimated appropriation for the work.

The North Santiam road work this year will be through the eastern end of Lincoln county. The federal bureau of roads and Marion county will each hput \$100,000 into the project.

P.-T. COUNCIL TO MEET, AUMSVILLE

Mrs. Miller of Monmouth Normal will speak in the afternoon on "Rural Life and Parent, Teacher work."

Registration Of Voters in Oregon Gains

Less than half of the counties in Oregon had reported their official registration of voters for the primary election to the state department here tonight.

Figures received from 17 of the counties indicate material increases in registration, with a normal gain by both the republican and democratic parties.

The law provides that all counties registration figures shall be certified against the registration records of the secretary of state. It is not likely that this work will be completed before late next week.

'Jobs Not Beer' Demand Voiced As Reds Parade

Retrial Asked By Plaintiff Against City

Motion for a new trial was filed yesterday in circuit court here by counsel for Mrs. J. P. Mollenkopf who was unsuccessful in her second suit against the City of Salem for \$5000 alleged damages received in an accident at the city airport March 30, 1930. In the first trial the case was non-suited; Mrs. Mollenkopf appealed to the supreme court and received a mandate ordering the second trial.

The city filed a cost bill of \$36.80 in court yesterday and unless the verdict of the circuit court jury is upset by a new trial or appeal, the plaintiff will be forced to pay this.

Capone Lawyers Invoke Statute Of Limitations

WASHINGTON, April 30.—(AP)—Al Capone might have an excellent chance to escape his 11-year sentence in prison if a certain point had been raised during his trial.

His chances may be excellent yet, since his lawyers are making the claim now, but the department of justice feels—and hopes—that it is too late.

The point was that the three year statute of limitations had run out at the time of the gangster's indictment for violations of the income tax laws on June 5, 1931.

Eleven Koreans Held For Fatal Bombing Affair

SHANGHAI, Apr. 30.—(AP)—Eleven Koreans alleged to have been involved in the Hongkong bombing yesterday, in which one high Japanese official was killed and five injured, were arrested today.

Reports emanating from the French consulate were that the men who lived within the French concession, had been taken in custody by the French authorities and turned over to the Japanese. According to these reports, the prisoners had for some time been engaged in anti-Japanese and revolutionary activities.

EMPLOYMENT LOSES LAST WEEK'S GAIN

Employment opportunities slackened last week and the number of men placed through the U. S.-Y. M. C. A. Employment bureau fell from 145 the previous week to 105. Wood cutting and farm work continued to be the best source of jobs, outside of county road work. Forty-one persons applied for work.

With the weather improving, the county crew was increased from 38 to 48. Wood jobs fell from 60 to 20, farm work from 28 to 21, common labor from 12 to eight. Work was found for two carpenters and one salesman.

Of 11 women applying for work, four were placed as domestics and one as a nurse.

SALEM BOY'S WIFE GOES BEFORE KING

Mrs. Russell Brooks, Wife Of American Consul to London, is Honored

LONDON, April 30.—(AP)—Because there is no American "ambassador" in London, a somewhat unusual situation has arisen in connection with the presentation of a group of American women at the first of the British courts this year.

The Americans will be presented by Mme. de Fleuriau, wife of M. A. de Fleuriau, the French ambassador, who will act at the request of Ambassador Andrew W. Mellon. It was announced today.

Mrs. David K. E. Bruce, the American ambassador's daughter, is the hostess at the American embassy, but it is impossible for her to make the presentations, as she has not yet been formally introduced at court.

A total of 20 American women will go before the king and queen at two courts, the first group on May 11 and the second on May 12. The second group will include Mrs. Russell M. Brooks, Salem, Ore.

Mrs. Russell M. Brooks, wife of the American consul to London, who is a former Salem boy, has been invited to a presentation at the court of St. James in the near future. Mrs. Brooks is a French girl whom Mr. Brooks met during his consular service.

Russell Brooks is a son of Mrs. Mildred Robertson Brooks, Marion county recorder.

IRISH FURZE GIVES COLOR TO HIGHWAY

Bright Yellow Flowers add Much to Enjoyment of Journey to Bandon

Travelers journeying down the Oregon Coast highway in the vicinity of Bandon-by-the-Sea are greeted by a flood of golden light as the Irish furze is in bloom. To the stranger the sight of the faintly scented, bright yellow flowers is one of lasting memory and keen enjoyment.

The Irish furze is found only within a radius of a few miles of Bandon. It borders the highway on both sides, covers waste lands and groves down the steep rocky cliffs to the ocean's edge. It's beauty is most impressive unless perchance the stranger attempts to pick a bouquet. It's many thorns hidden by the yellow blossoms protect it securely from both man and beast.

One of Bandon's earliest settlers was Lord Bennett, a native of Ireland and the town received its name because of the sameness of climate and general coast line that of Bandon, Cork county, Ireland. The seed of the furze growing so profusely today was sent to Lord Bennett in an envelope from the Emerald Isle and was planted by him as a hedge around his original home.

The lovely rhododendron, azalea, wild iris, wild lilac and countless other wild flowers are also coming into bloom and the next month will see the coast highway in its most beautiful garb and will be enjoyed by many week-end visitors from the interior.

Teachers' Suit For Contracted Salaries Heard

Arguments were heard in the state supreme court Friday in a suit brought by Leona Stoddard and a number of other school teachers to enforce payment of their salaries under a contract entered into with the school directors of school district No. 91 in Jackson county.

The records show that a subsequent school board reduced the salaries of the plaintiffs, and later cancelled their contracts to teach. The plaintiffs allege that they are entitled to their salaries during the period covered by the contracts. The amount of money involved exceeds \$8000.

The circuit court for a Jackson county heard for the plaintiffs. The school district board appealed.

PRAIRIE BERRYMEN MAKE BIG PLANTING

NORTH HOWELL, April 30.—Strawberry planting in the North Howell area is being steadily kept up in spite of the quietness of the market and the old fields are being hoed and cultivated as usual.

Several of the growers are planting their fields with lime to prevent the ravages of the spit bug which has been such a nuisance in past years.

Among these growers are C. E. McIlwain, Andrew Husa, V. Van Brocklin and some in the Coombs yard.

New fields are being planted by August Woeike, Louis Mayte, A. B. Wiseman, George Weisner and Roy and Percy Dunn. Most of these growers are using the machine planter and as the sets are large and in very good order the work done is very satisfactory.

There is no lack of employment at present in the North Howell district and many drive out from Salem and Silverton to dig plants and trim them ready for the planter.
