Stocks React After Three Days of Rise; Upturn Near Close Helps

NEW YORK, June 6—(AP)—Stocks reacted today after advancing for three consecutive sessions. Profit taking was a natural aftermath to last week's rally, brokers pointed out, and it did not cut a particularly wide swath through what had been gained. Apparently, however, the market had about all the rally it could stand on the basis of developments to date, and new buying of consequence held aloof.

An upturn in the last hour cancelled half or two thirds of early 1 to 4 point losses, but prices then sagged again. Final quotations, nevertheless, were above the lows, and for the first time in a week volume was under the million mark, totaling only 942,365 shares.

FOUKES BACK FROM CHURCH CONVENTION

Good Roads Make Possible Rapid Trip; East Sees Better Times Aye

Roads which have been vastly improved in recent years enabled Rev. and Mrs. Hugh Fouke and family to leave Northampton, Mass., Saturday morning, May 28, and to reach Salem the following Friday night. "We could easily average 500 miles a day, starting at 5 a. m. and quitting by dinner time at night," Rev. Fouke reported yesterday upon his return from the general conference of the Methodist church at Atlantic City, where he was one of eight delegates from Oregon. Following adjournment of the conference the Foukes motored to New York, and through Massachusetts to Boston where for four years Rev. Fouke had attended school and preached.

"The east has been hurt more by depression than the west although the feeling seems prevalent that the worst is over," Fouke reported. "In cities like Philadelphia one sees scores of large houses occupied by wealthy men marking 'For rent or for sale.'" New York City has vast numbers of little tenanted buildings built just at the close of boom times and unable to find occupants.

CEREALS DECLINE TO 1897 LOWS HOGS MAKE SUBSTANTIAL ADVANCE

Europe Buys Heavily On Drop but That Helps Little

CHICAGO, June 6—(AP)—Sensational new breaks in grain values plunged some cereals down today to below any bottom reached since 1897.

Sacrifice quotations resulted in European importers buying as much as 5,000,000 bushels of wheat from North America, mostly Canadian, but led at the last to only a fractional rally here from the day's low point. Waves of stop-loss sellings accompanied evidence of severe unsettlement of markets at Liverpool and Winnipeg, with Canada under-selling both Argentina and the United States, and with indications that Canadian farm holdings were being liquidated wholesale to anticipate stoppage of the Canadian government wheat bonus of 5 cents a bushel.
