

## MRS. R. M. BOSLEY DIES AT MONMOUTH

MONMOUTH, June 15—Mrs. R. M. Bosley, 85, died Tuesday night at the family home here after a three months' illness. Funeral services will be held Thursday at

when made from fresh full flavored berries and Pen-Jel.

Gone are the days when it was necessary to use fruit that was under ripe in order to be certain of success. Not only are you insured against failure

when you use **SPEAS PEN-JEL**

but by the simple cup-for-cup method you use only one simple recipe for all fruits. No complicated book of recipes needed.

2 p. m. at the Smith chapel, Rev. A. L. Lonsberry officiating and burial to be made in the K. P. cemetery here.

Mary Ann Simpson was born November 3, 1844, at Carol, Mo., the daughter of Josiah and Emaline Simpson. She was married October 22, 1872, to R. M. Bosley at Speckardville, Mo., where they engaged in farming for more than 30 years. In 1904 they came to Monmouth, operating a farm west of town for 16 years. They retired in 1920 and established a home in town.

Mrs. Bosley was a noted collector of toys, antiques and curios. She had toys of her own more than 75 years old, and each generation had saved unusual toys belonging to her children, grandchildren and great grandchildren.

Surviving, besides the widower, are two daughters, Mrs. W. B. Egleson of Monmouth and Mrs. George McCormack of Peedee; eight grand children and nine great grandchildren.

## POLK'S ETTERBERG CROP THIRD NORMAL

ZENA, June 15—(Special)—The red hills in the northeastern section of Polk county are noted for their numerous fine strawberry fields, the Marshall variety thriving particularly well in the red soil. The harvest is now drawing to a close. The crop was excellent in both quality and quantity.

While the berries ripened very slowly this year they were larger than some years because of the cool, damp weather early in the season. The extreme heat of last week slightly burned the ripest berries but the damage was negligible.

Growers here sold their earliest Marshall crops to Salem stores at a fair profit, but later sold out of the fields at a cent a pound, the buyer to pick his own berries. The harvest of Etterberg strawberries, which are a later variety, will coincide with cherry harvest this year. The harvest will be shorter than usual as about a third of a crop is reported, this condition prevailing in other sections of Polk county also. W. F. Crawford, who is one of the largest strawberry, prune and cherry growers in Zena, is now picking early varieties of cherries, namely the Governor Wood and Centennial. The regular cherry picking however starts some time next week.

## DALLAS GUARDSMEN ENTRAIN FOR CAMP

## BURBANK FALLS IN SAWDUST; BURNED

PEEDEE, June 15—Children's day was observed at the local schoolhouse Sunday with the Wildwood Sunday school also in attendance. Sunday school came first in the morning followed by a program presented by the children under the direction of Mrs. C. L. Burbank and Mrs. Will McCormack. A basket lunch was enjoyed at noon and preaching by Rev. Fogg in the afternoon.

A. L. Burbank was quite badly burned at the Burbank mill here Saturday. He was at the mill alone and in some way fell into the sawdust pile which was burn-

ing. After crawling out he managed to drive to the home of his brother, Chester Burbank, where he is now under care. Mr. Burbank is now under care. The junior and senior Christian Endeavor met at the schoolhouse Saturday night for a business and social session. Games were played and at a late hour refreshments were served.

## Plowman Leaves For Washington Pulpit

RICKREALL, June 15—Rev. Roscoe E. Plowman who has been holding Sunday services in the Ebenezer church here since last fall preached his farewell sermon last Sunday morning and will leave shortly for Bellingham, Wash., where he will preach the coming year.

### Sugar Market

After many declines the market for sugar has shown a little strength and advanced 10c per sack in the last few days. While this is not to advise anyone to buy more sugar than is needed for immediate use, but it does seem to indicate the bottom price has been reached, at least for a while.
