

TRIO OF OFFICERS RESIGN AT MARION

To Join Local in Their own Section; Davidson Home Is Destroyed

MARION, June 20 — In spite of this being a busy season with the farmers, a fair sized crowd attended the meeting Friday night of the Marion Farmers Union local. Mr. Fisher, a representative for the Oregon Taxpayers' Equalization and Conservation league gave a short but instructive talk on "Property Tax Relief," stressing the fact that property owners were no longer able to carry the excessive tax and urging economy and equality.

Due to lack of time only a short program was given consisting of orchestra, music and readings by Arlene and Genevieve Lucker. Because of the recently organized local at Talbot, it was with regret the resignation of three local officers were accepted: Mrs. Rose Gillmore, secretary-treasurer, and George Patz and Jake Gilmore on the executive board, who hereafter will work with their home local. Mack Robbins was appointed secretary-treasurer, and Carl Alson and Keith Allen on the executive board.

There is to be a joint picnic on July 4th at Green's Bridge Grove by Marion, Riverview and Talbot locals. Committees were appointed to take charge of the Farmers' union county convention to be held at Marion Saturday, June 25.

Farm Home Destroyed

The home of Mrs. Maggie Davidson, one mile west of Marion was completely destroyed by fire Friday afternoon. It was thought to have caught on the roof by sparks from the flue, and the entire upstairs was aflame when discovered by Mrs. Davidson who was in the kitchen.

Only a very small portion of the furnishings on the first floor were saved. The hen-house burned and it was only by hard work that the barn was saved, as it caught on fire several times. Loss is partially covered by insurance. This is the fourth home destroyed by fire in this vicinity in the past year.

MEN FIND PLENTY OF WORK AT CAMP

Battery From Salem at Stevens Gets Variety of Details to Attend

FT. STEVENS, June 20—Friday was a rather busy day for everyone here at the fort.

Battery A from Albany only managed to give five rounds of sub-caliber from the masters at Batter Clark, while Battery C of Marshfield fired 49 rounds in the morning and 51 rounds in the afternoon from the big 10 inch guns at Battery Russell. Battery E of Cottage Grove fired 52 rounds and Battery B of Ashland fired 70 rounds from the 6-inch guns of Battery Pratt.

Headquarters Battery was all divided up into different details each having its own work to do. The radio detail, made up of Staff Sergeant Heenan, Sergeant Wicklander, Privates Gahlsdorf, Roth, Speck, Harvey and Robbins, were on the ocean tug, the river tug, and the shore station. Sergeant Don Pouljade was in charge.

Sergeant Don Baker was in charge of the communication detail. The other men were Sergeant Carl Finster and Corporal Schernacher. They took care of the telephone communications and time signals for all batteries. The telephone detail in command of Sergeant Andy Baker, Sergeant Golden and Privates Walters and Moore, spent the day at the Fort Command station.

Corporal Cross was kept busy on the meteorological detail checking time, tide, barometer, a sextant and velocity of wind, while Sergeant Ray Finster kept two Battery A men busy building targets for service fire which will take place next week.

The medical detail had a rather easy day with few cuts, bruises or burns. After clearing the hospital three details of medics were sent out. Privates Barker and Barks went to Battery Clark, Privates King, Otjen and Clutter were at Russell, while Privates Utter and Morehouse were sent to Battery Pratt.

This morning the different batteries were inspected by Lt. Colonel Erwin, Major Abbey and other officers. After the inspection Colonel Erwin complimented the medics by saying that the barracks room and hospital was cleaner than any other barracks in the regiment.

Do you inhale?

The tobacco trade is at "sixes and sevens" on this embarrassing question

Do you inhale? This simple question caught the cigarette trade by surprise! "Why bring that up?" they asked. "Why don't you let well-enough alone?" But "well-enough" is not enough for Lucky Strike! The subject of inhaling is vitally important... for every smoker inhales knowingly or unknowingly. Every smoker breathes in some part of the smoke he or she draws out of a cigarette!

Do you inhale? Lucky Strike dares to raise this vital question... because Luckies' famous purifying process removes certain impurities concealed in every tobacco leaf! Luckies created that process. Only Luckies have it!

Do you inhale? Remember—more than 20,000 physicians, after Luckies had been furnished them for tests, basing their opinions on their smoking experience, stated that Luckies are less irritating to the throat than other cigarettes!
