### GOOD YIELD FRUITS REPORT, SUNNYSIDE

SUNNYSIDE, June 22 — The fruit crop outlook for this community is not reassuring. Splendid yield of strawberries but no price; many patches picked ones and left; loganberries with promise of heavy yield and the growers just wondering and awaiting what will be the outcome; prunes a light crop with no market in sight, offer a sorry picture but Sunnyside will turn the cloud inside out and see the lining with prosperity just over the hill. Grain and grasses are especially good this season but the dry weather if continued will lighten the yield.

The dry grass and brush along the roadside is being out and burned as a fire protection by the road patrolman crew.

Mrs. Philip Ross has come up from California to visit her old home and friends for a few weeks and is endeavoring to dispose of her farm while here.

### DELIVER TO PAULS SUBLIMITY, June 22—Many strawberry growers around Sublimity are now taking their berries to the Pauls Packing company at Salem. The hot weather has cut short the strawberry crop and some have stopped picking.

VALSETE, June 22—Johnnie Myers and family left for Denver by automobile last week to make their home there.
