WIDE VEHICLES TO BE HELD TO RULES

Orders intended to provide additional safety for automobile drivers on the highways, with special reference to the width of trucks and other vehicles and left hand turns, were issued here today by Charles P. Pray, superintendent of state police.

Pray warned that vehicles with loads exceeding 96 inches in width cannot lawfully be operated at any time without a special permit to do so from the highway department. Vehicles exceeding 72 inches in width cannot be operated unless equipped with clearance lamps required by law.

"Many accidents have resulted from operators' making left hand turns on the highways without due regard to vehicle speed, due to the opposite direction. The movement of such vehicles is of as grave importance to an operator effecting a left hand turn as that of those approaching from the rear. Failure of an operator to observe signs of proximity at the rural home of Mr. and Mrs. Earl Headrick, in the Kingwood Heights section.

At the same time, this branch carried normal blossoms and green apples as large as tennis balls! The blossoms are dropping off, and presumably another crop of apples will be forthcoming on this limb. The apple is a winter variety and the tree is of indeterminate age, neither young or old.

OBLIGING FUGITIVE FLAGS POLICE CAR

When J. W. Wright, alias J. W. Allen, flagged a state police car to give him a "lift," he either didn't know until too late that it was a police car, or did not give police credit for a good memory.

Anyway, the policemen recognized that Wright or Allen was the man wanted on a bench warrant from justice court here, so brought him in. Wright was arrested in May for giving a check without sufficient funds, and pleaded not guilty. He was instructed to reappear in the court May 25. He didn't, and June 9 a bench warrant was issued for his arrest.

When picked up yesterday, he pleaded guilty and was bound over to the grand jury, with bail set at \$1500. He is in the county jail.

Growers in the Dundee section, same as those here, are getting from two to two and a half cents a pound for their cherries. Twenty men are working in the barreling job at Dundee.

Barrels for the contract are manufactured by the Northwest Co-operative company in Portland, thus affording additional work to Oregon people.
