Celebration Faced

(Continued from page 1)

A celebration program even more comprehensive than the one it sponsored last year.

City, county and state officers will be closed tomorrow. Likewise will business houses. With postal employees working on holiday schedule, no residential or business mail deliveries will be made, other than special delivery.

All activity will center at the fairgrounds, other than special where in the morning the boys and girls will be feted with all sorts of contests. At 11 o'clock James W. Mett, state corporation commissioner, will address the crowd gathered for the patriotic exercises.

The double race program will begin at 1:30 o'clock. The motorcycle races and stunts will take place first. Next in order, at 2:30, the automobile races will start. Speedy exhibitions are promised by the celebration committee for both types of racing on the track.

Match Big Feature

During the day the American Legion junior band here and the official legion band from Albany will play. Capital Post drum corps will make one appearance.

Crowning the day for the fans will be the wrestling match between Robin Reed and Henry Jones for the world champion welterweight belt held by Reed. The match is scheduled to start in front of the grandstand.

After the match, fireworks in front of the grandstand and the dance in the automobile pavilion will begin.

personnel of the board of higher education.

Zorn also scouted a rumor that has been going the rounds at the statehouse to the effect that he is at odds with the Portland wing of the merger movement.

"It's all propaganda," he replied, "when asked if he had quarreled with Portland backer when they supposedly issued statements under his name and without his knowledge. 'We are united in our position.'"

"Throughout the state Zorn said he had heard many heart-rending tales of financial difficulties through which farmers are going. 'Many of them haven't much left but a mortgage on their property,' he commented. 'Constantly the complaint is that this condition comes through no fault of the owner; he is simply facing a condition he cannot meet.'"

mated that the trip by automobile would require 300 gallons of gasoline and six to eight quarts of oil.

No faith in receiving much support locally in their trip was expressed by a veteran last night. He said he scarcely expected they would receive more than the \$75 promised by the three men.

They are determined, however, to add their backing to the present thousands of veterans now at Washington in the hope of influencing congress to vote immediate payment of the adjusted service certificates due in 1945, Martin says.

MAYOR DORE FIRES OBJECTING FIREMEN

SEATTLE, July 2.—(AP)—Action by a majority of the members of the city fire department, voting not to sign, voluntary pay cuts circulated at the request of Mayor John F. Dore, drew a quick reply today. He ordered Chief Claude W. Corning to suspend 250 men for 30 days, beginning next Tuesday.

"I realize that these firemen belong to a firemen's union and there is some talk of a strike," he wrote.

"I would welcome one. Anyone that goes on one will never work in the fire department again. There will be no strike against public service while I am mayor."

A total of 415 of the 731 members of the department voted yesterday not to sign the voluntary pay cuts.

HUMAN SIDE OF DEMOCRATIC STANDARD-BEARER

AS A SUMMER ON BOARD HIS YACHT ROOSEVELT (Left) ON GRID SQUARE

When Governor Franklin D. Roosevelt of New York, whom the Democratic Party has chosen to bear its banner in the coming Presidential battle, was five years old his father took him to the White House to visit his old friend, President Grover Cleveland. It is said that on that occasion, President Cleveland, beset with problems similar to those of today, placed his hand on little Franklin's head and said: "I'm going to make a strange wish for you, little man. It is that you'll never be President of the United States." Only the ballot boxes next November can tell whether that wish is to be realized. But in the event of Roosevelt's election, he will enter the White House with a certain amount of regret, for his new office would not afford him the time he wants to devote to his beloved sport.

Since he was a small boy, Roosevelt has had a passion for yachting and swimming. At 14 he sailed a tiny boat from New York to Halifax, no mean feat even now for a seasoned sailor. He swims daily in the pool at the Executive Mansion in Albany and his home in Warm Springs, Ga., is close to the mineral pools in order that he can take a plunge when he feels like it. Roosevelt never went to public school. He had a private tutor who prepared him for entrance to Harvard, whence he was graduated in 1905. He is also a graduate of Columbia Law School. He made his bow in politics in 1910, when he was elected to New York State Senate, from which he retired in 1913 to become Assistant Secretary of the Navy. He was elected Governor of New York in 1928 and his success in that capacity contributed largely to his victory in the recent convention.
