"SO YOU SEW too!"

MORE and more women are thus greeting each other in the piece goods departments of our stores. In fact, the piece goods departments are rapidly becoming the headquarters of modern women who have found that modern, simplified patterns enable them to take advantage of the wonderful values in materials the stores are offering.

In these days of developing and capitalizing feminine talents, the woman who does not sew is actually called "old fashioned" by her more progressive sisters who buy their fabrics at the current bargain prices, and in no time at all flaunt beautiful frocks perfectly fitted to their personalities as well as their figures.

Anne Adams Patterns offered every day in this newspaper are the favorite patterns of all of those discriminating talented women you see at their sewing machines. Watch for them every day in
