NEW YORK, July 20-(AP)-While promising to take all available measures to seek the utmost in operating efficiency, the Association of Railway Executives today, in a statement issued to 'the American public," declared its members believed freedom of managerial control and equality of opportunity with other forms the past year and half. At this of trasportation, were essential if rate the suggested maximum of the roads are to surmount their 20 members will soon be reached. present difficulties.

The statement was issued after more than 50 rail chiefs met for intensive discussion of the problems of the transportation industry, arising from the drastic decline in revenues to levels where the majority of the roads are failing to earn their fixed charges.

The condition of the roads is such that the executives felt it was their duty "to the general public, to the government, to the owners of the railroads, and to their employes, to lay before them in complete frankness the seriousness of the present situation and to point out some of the causes which have brught it about."
