By JOHN L. COOLEY NEW YORK, July 25-(AP)-The stock market shoved through its early June highs in relatively active trading today, accompanytrade operations, prices after- ing another mark-up in bond

Drices. Speculators for the advance were assisted by brisk abort covering in a number of shares, notably United States Steel Pre. . . d which jumped 5 1-4 points on gossip that the regular quarterly dividend would be declared at top orrow's board meeting and reports that the company's second quarter financial statement might make a better showing than had been anticipated.

Generally speaking, stocks enjoyed a broad market. Oils were, conspicuously strong, but industrials, rails and utilities moved forward in a manner that bespoke speculative optimism. / Further word of scattered business improvement doubtless bolstered the case made out by professional operators and the list moved up with scarcely an interruption. The Standard Statistics-Associated Press composite closed 2.3 points higher at 43.6, the best level since mid-May. Thus the market was at last able to better June's peak of 40.6. Transactions totaled 1,-545,966, the largest volume since

June 2. There was no official hint as to what the Steel corporation planned to do with its Preferred dividend, but traders still short of the stock took in sail against ordering of the usual payment.

C. extension service and the U. S. D. A. bureau

of agricultural economics. This was the first change in quotation since the first week in June when prices dropped to the 70-130 lbs., good and choice 3.50-4.00. Slaughter sheep and lambs 1200; about low point that has continued ever since.

. The price change is considered here a seasonal rise in line with the recently advancing coast butter markets which showed a 2cent gain in the Seattle and Portland jobbing markets and in the San Francisco who!esale trade.
