

# CIVIL SERVICE APPEAL FACED

## Lewis and Hulsey Lose out in Hearing, Will Take Case into Courts

(Continued from page 1) would not affect the Olson case. Ryan, in outlining for the records his clients' positions, held that Olson's seniority dated only from June, 1931, instead of in 1934 as the commission had ruled, because Olson had resigned early in 1931, and not merely taken a leave of absence, as Olson had contended.

**Claims Olson Quit Service For Good**  
Ryan, to substantiate this, had marshaled the nine witnesses, who he said would prove among other things that Olson severed absolutely his connection with the fire department to go into the floral business here in 1931; that he told several persons he was through with the fire department job permanently; that he purchased an insurance policy, telling the agent he would not again engage in a hazardous occupation; that Olson, applying for a civil service job in Portland stated his residence to be there in 1929; and that Olson himself, told his fellow firemen that Lewis and Hulsey succeeded him in seniority.

Those subpoenaed by the petitioners' attorney to appear last night, but who were not permitted to give testimony, were Oscar Olson, Buck Bradley, Glenn Shedeck, Pennington Baggot, William Iwan, Ben Faight, John Barker who was Olson's partner in the floral business and Charlie Fankner.

Most of those who attended the hearing were members of the fire department and their wives. The two petitions up last night are the third to come before the civil service commission as a result of an economy measure voted by the city council, in which services of eight firemen were discontinued.

# RELIEF TO AWAIT DISARMING, WORD

WASHINGTON, July 27 (AP)—Actual disarmament by Europe was demanded today by Senator Watson, of Indiana, the republican leader at a preliminary to any world economic conference on war debts and reparations such as proposed by Senator Borah, of Idaho.

"It is unthinkable," said Watson in a formal statement, "that should permit them (the European nations) to keep the money they owe us to enable them to build up larger military establishments on the continent and as far as we can see that is their plan and purpose."

Ambassador Edge in Paris today informed the senate that the basis for cooperation between the countries lies in disarmament.

It was evident here tonight the administration is not going to take the initiative for downward revision of the tariff imposed the United States and will demand drastic European disarmament as its price.

However, administration interest in the international situation and Borah's proposal for a world economic parity were discussed by a conference last night between Secretary Stimson and the Idaho senator.

# 'MODEL BOY' SLAYS AUNT, CONFESSION

SAN JOSE, Cal., July 27. (AP)—Describing himself as "a model boy" — I do not drink or smoke," George Douglas Templeton, Jr., 20-year-old university junior, today confessed to stabbing his aunt to death and seriously wounding his uncle.

Templeton said he acted to avenge wrongs he believed his uncle, William Rider Babcock, had done his father when the two were associated in business in Manila, some years ago.

Inquest into the death of Mrs. Lillian Babcock, Manila society matron, before dawn yesterday from wounds inflicted with a 40-cent butcher knife will not be held, officials announced, until it is definitely determined whether Babcock will live.

Doctors at Palo Alto hospital said today Babcock will recover bearing complications.

Templeton's parents, Major and Mrs. George Douglas Templeton of Oakland, Cal., reached here today to see their son, who was arrested last night at Oakland. "He was always a quiet boy," Mrs. Templeton said of the confessed slayer, "but of late he seemed moody and more silent than ever, as though something was preying on his mind. He has a very sweet disposition and a loyal character."

# PAID IN BREAKFAST FOOD

Bob "Believe It or Not" Ripley, who at times puts a severe strain on human credulity, is shown here with his latest find. He is Roque Pallares, President of the Republic of Andorra, midged independent country of Europe, who receives his pay as Chief Executive in breakfast food. Rip visited the tiny republic in his search for remarkable facts.

COLONEL RAY OLSON of the Oregon National Guard is on the sick list suffering a severe attack of tonsillitis. Although Ray lives alone in his apartment he has a lot of friends drop in on him to bother him, but from all reports a couple of charming neighbors across the hall not only drop in but serve him some fine lunches. We predict Ray will not go back to work any sooner than necessary.

Rufus C. Holman is strong for standardization of wages. In fact he is so solid on the idea that he urges standardization before another reduction in state salaries, and then if necessary the cuts be based upon the new schedule. Not a bad idea at all.

A state highway commission meeting to consider emergency relief work under the new federal act was set for tomorrow, but it has been deferred because of lack of information about the government's policies in administering this fund.

At least there will be no further moratorium for new license plates regardless of what plan may be in the governor's mind for future action to give relief along this line. The governor was emphatic in his announcement that the moratorium is up July 31. So the rush to get plates will probably be resumed today.

Tuesday the license sales were good, but they dropped off again yesterday when reports were published that something was being considered. Secretary of State Hal E. Ross may not keep the extra he employed this week, as thousands are ready to buy licenses but were only waiting for

man, Bobby Sederstrom, Eleanor Sederstrom and Mona Hudeleston.

# NOBODY TO BLAME FOR FATAL WRECK

KIEL, Germany, July 27. (AP)—Naval officials investigating the sinking yesterday of the naval training ship Niobe, with a loss of 69 lives, declared today neither the officers nor the crew were responsible for the disaster.

The ship, a three masted windjammer, went down near Fehrman lightship off Holstein. Many of those who perished were cadets studying to be naval officers.

"When the squall struck the ship," one of the surviving cadets said, "the first officer had sufficient presence of mind to shout a command, 'All hands to starboard,' but it was too late."

The sinking of the Niobe was Germany's greatest naval disaster since the war. Virtually two thirds of one year's class of future naval navigators perished. The survivors came here today from the cruiser Koenigsberg. Only one was injured. He was the cook who was severely scalded when boiling water upset on him as the ship heels over.

# Milk War On at Klamath Falls

KLAMATH FALLS, Ore., July 27.—(AP)—Virtually all dairies in Klamath Falls have reduced the price of milk from 10 to 8 cents a quart, delivered. This action followed information that a dairy outside the city was selling milk for 15 cents a gallon at the ranch.

# PARK DAY SERVICE SUNDAY AT DALLAS

DALLAS, July 27—Members of the Christian churches of Polk county will gather at the Dallas city park Sunday for the annual park day services and fellowship. The first session will begin at 9:45 in the morning with a Bible school service. Hugh Black will be in charge of the assembly service and the direction of the classes. Visiting preachers and teachers will assist in teaching the various classes.

At 11 o'clock will occur the communion service. E. Von Forsell, pastor of the Christian church at Ferrysdale, will be the speaker. Special music will be provided for this service by visiting singers.

A covered dish dinner will be the special attraction at noon. At 2:30 o'clock the afternoon service will be held with Willard Elkins, pastor of the Monmouth Christian church, as the speaker. There will be special music for this service.

The Christian Endeavor society will hold an open air service in the park at 6 o'clock in the evening. There will be special talks and music for this service.

There will be no evening church service but members of the congregation will visit Dallas churches and churches in towns near Dallas. Several automobile clubs will visit the church at Monmouth.

# ASSOCIATION SUES ON MILK CONTRACT

Demand for damages against Rieck Brothers, local dairymen, is made by the Dairy Cooperative association in an amended complaint filed Wednesday in circuit court here. Plaintiff contends that the defendant had agreed by contract to sell milk to it. Subsequently the agreement was amended to permit Rieck Brothers to sell some milk at retail here on the understanding that the surplus go to the dairy association. The latter charges that since January 1, 1932, neither has the base supply nor the surplus milk produced by Rieck Brothers gone to the local cooperative association.

Damages of twelve and one-half cents on each pound of butterfat sold since January 1, 1932, by Rieck Brothers are sought by the plaintiff as well as a five per cent charge on all the base rate and surplus milk. The plaintiff asks the court to make an accounting since no records are available to the cooperative association.

# Tornado Kills Farmer, Spouse Critically Hurt

DASSEL, Minn., July 27.—(AP)—One man was killed and a woman so seriously hurt she was not expected to live as she result of a tornado which swept a two-mile swath through 10 miles of farm land east of here tonight.

Starting near Kingston, at the farm of Magnus Johnson, the tornado demolished his house, churches and farm buildings, killed cattle and leveled crops before it spent itself several miles southeast of here.

August Nikkes, 75, a farmer living four miles northeast of here, was killed while milking in the barn. His wife was critically injured.

# National Legion Head Will Visit

PORTLAND, Ore., July 27.—(AP)—Henry L. Stevens, national commander of the American Legion, will be in Portland Monday and Tuesday to confer with the commission in charge of arrangements for the national convention to be held here in September.

And the state capitol building, in addition to housing the senate and house—vacant for the moment—has the executive department, banking department, budget director, press room, state police headquarters, state board of higher education, main offices of the secretary of state, state treasurer's office, state land board, tax commission, board of control, forestry department, labor department and the superintendent of buildings. If there are other Smiths, let them come forward.

Miss Rose Stoops, from the Portland office of the state treasurer, is substituting here for Miss H. Austin, secretary to Mr. Holman while she is on her vacation. Miss Austin is vacationing at her cottage in Brightwood, near Portland.

THE GRAND  
Today—Joan Bennett, in "She Wanted a Millionaire."  
Friday—Buck Jones in "Ridin' for Justice."

THE HOLLYWOOD  
Today—Tala Birell in "The Doomed Battalion."  
Friday—William Haines in "Are You Listening?"

The roadshow presentation of Metro Goldwyn Mayer's production of "Grand Hotel", with Greta Garbo, John Barrymore, Joan Crawford, Lionel Barrymore, Wallace Beery, and Lewis Stone heading the cast, will be presented at the Warner Bros. Elsinore theatre Thursday and Friday. All seats for all performances—at 2:30 and 8:30 both days—will be reserved.

According to the M.G.M. offices, "Grand Hotel" will not be shown this season in this vicinity or in any theatre at lower prices than those prevailing for the current engagements.

"Grand Hotel" is adapted from the widely-read novel of the same name written by Vicki Baum. The screen version is said to represent a blending of salient points of the novel and the subsequent stage play which ran for more than a year in New York. At the same time, Director Edmund Goulding points out, none of the action in the film goes beyond the four walls of the Berlin hotel from which the story derives its name.

"Grand Hotel" is one of the few stories ever written, explained Director Goulding, where no single character dominates but where at least five are equally important to the story structure.

The part of Grusinskaya, the Russian dancer, was given to Miss Garbo in the screen treatment of the play. John Barrymore has the role of Baron von Geigern, his brother Lionel the part of the invalid Kringlein, Wallace Beery the role of the textile magnate Preysing, and Joan Crawford the part of the hotel stenographer Flammchen.

# Dallas Firm is Sued by State Accident Board

DALLAS, July 27.—A suit was filed in the county clerk's office here Wednesday in which the state industrial accident commission seeks a judgment for the sum of \$54.65, and costs and disbursements of the action, from John William McCormack.

McCormack is alleged to have operated a sawmill and to have owed the accident commission \$72.69 for compensation protection on the wages paid to his employees. He paid \$27.47 of this and it is alleged that he still owes and refuses to pay \$45.22 plus two small additional amounts.

# BUSINESS HOUSES IN DALLES ROBBED

THE DALLES, Ore., July 27.—(AP)—Four business houses in The Dalles were robbed Tuesday night, apparently by one group of marauders, police said.

Rings and watches valued at \$200 were stolen from a jewelry store. Other establishments entered were a grocery store, auto wrecking shop and carpenter shop.

Near Crown point on the Columbia River highway, reports to police said, two men attempted to steal produce from a Portland bound freight truck. Shots fired at the two by George Spickerman, of The Dalles, who was hidden in the back of the truck, drove them away.

Spickerman, one of the proprietors of the truck line, said he had lost more than 40 parcels from his truck in the last few weeks. The thieves made a practice of boarding the trucks from the rear while they were moving slowly up the grade toward Crown point, Spickerman said and that the parcels were out to be picked up by confederates.

# PEG-TOP TROUSER ERA WILL RETURN

NEW YORK, July 27.—(AP)—A return of the peg-top trousers, contemporary of the tandem bicycle and the Florida sextette, was decreed today by the international association of clothing designers, holding its annual convention.

And the well-dressed man, if he follows the designers' dictum, will leave his tuxedo in the summer moth balls. Tails, they decided, will be worn almost exclusively at formal functions. They found that collegiate misrule has killed the popularity of the dinner coat.

About those peg-top trousers; the bottoms will be narrow and the tops pleated. The coats to go with them will have accentuated waists and the broad shoulders of this year.

Polo coats, the designers expect, will be worn extensively. Materials of suit will be softer and colors duller.

# INDIGENT SOLDIERS FUND IS EXHAUSTED

PORTLAND, Ore., July 27.—(AP)—The Multnomah county commission today announced that A. P. Goss, disbursing officer of the indigent soldiers' fund, would be removed from office August 1 because the fund had been exhausted and consequently a disbursing officer was no longer necessary.

The indigent soldiers' fund, created by statute and dispensed under the direction of the board of county commissioners, was about \$74,000 this year.

Miss Lucy D. Lillis, secretary to the disbursing officer, also will be eliminated from the payroll August 1. The commission announced the removal of the officer and secretary would mean the transfer of about \$330 a month to the Red Cross.

# Reconciliation Not Successful Claim of Wife

Mary J. Frank brought suit yesterday in circuit court here asking divorce from Albert Frank her husband, and a settlement of their property rights.

She declares that a reconciliation made last September has proved unsatisfactory. At that time she was given equal property rights in their home and a \$10 monthly allowance for spending money. Mrs. Frank claims her husband's bad temper continues. She alleges he is sullen, morose and on occasions has struck at her.

In her complaint she asks a one-third interest in his real property and \$500 fixed alimony. She alleges that he had personal assets worth \$10,000.
