### Salem Eagles, Van Cleave And Jones Families Hold Gatherings

SILVERTON, Aug. 1.—Sunday was an unusually busy day in the Coolidge and McClaine park at Silvertown. Several hundred people picnicked there at noon and spent the afternoon in swimming. At 4 o'clock the Silvertown high school band under the direction of Prof. Hal Campbell gave a pleasing concert.

The largest group of one organization which picnicked Sunday was the Eagles from Salem. The count gave 300 of these with an extra 25 for Cottage Grove.

The congregational church of Salem had 100 representatives in their group. There were 15 from Mount Angel; 50 from Rickreall; 20 from Woodburn, 35 from Monticor and 60 from Portland.

Members of the clan at the picnic Sunday were from Lebanon, Macleay, Corvallis, Salem and the Silvertown community. Over eighty attended. J. J. The appointment by President Hoover of former Senator Altes Pomeroy of Ohio, a Democrat, to the board of directors of the Reconstruction Finance Corporation, is seen by political observers as a complete answer to recent Democratic charges that the corporation was being used for political purposes. # A NEW GASOLINE That Amazes Experts

# it is RED LION

## The New SPEEDWAY Perfected GASOLINE

THE sensational new Gilmore RED LION is "speedway perfected." It is the result of a year of gruelling tests in racing cars. Experts say it has no equal.

New refining practices had to be developed to produce it. More crude oil is required from which to refine a gallon of this new gasoline than to produce a gallon of ordinary motor fuel. This is the more costly way to refine gasoline, but other refiners will come to it sooner or later.

The new RED LION Gasoline combines in perfect balance all the necessary efficiency of high octanes, distillation curves, high

gravity, boiling points, etc. It gives you that thrilling race car performance you've always wanted. It brings you the balanced, anti-knock, multi-power of premium gasoline... yet it costs nothing extra.

...and Ladies, you'll appreciate the absence of offensive gasoline odors in closed cars when you drive with RED LION.

Drive into the nearest Independent Gilmore Dealer and fill up with this new Gasoline.

# PERSIAN PRINCE BEAUTICIAN

The man in the above picture is not, as one might suppose, a husband waiting while his wife has her face made over. He is Francois Khan, Persian Prince, who, after trying almost every other mode of livelihood, has found his forte in providing milady with beauty, if she hasn't it already, and in enhancing the attractions of which she is already in possession. The Prince, who prefers to be known as plain Mr. Nazare, has run pretty nearly the whole gamut of life from his birth in a Persian palace to where you now see him in a Chicago beauty parlor. A soldier in the Foreign Legion, he was graduated to the French air service during the World War; was captured and spent some time in a German prison camp and on the conclusion of the war was decorated with the French Legion of Honor. He began his post-war life as a movie director in Paris, but the wanderlust got the better of him and he headed for the United States, where he began his career selling newspapers in New York. Then in rapid succession he was an errand boy, milkman, cartoonist and finally got a worthwhile assignment to Central America to make a travel film. He took up his present occupation as a beautician after he had been asked to resign from a Parisian cosmetics firm, which did not like the idea of his inventing a new type of perfume spray. He is now general manager of a company that specializes in pulchritude for milady, and though a prince in Persia, is regarded as a king in that particular job.
