## GRAIN PRODUCTION IN STATE REDUCED

Condition Declines, Yield To be Materially Less Says U. S. Report

All Oregon's grain crops show a decline in condition and yield prospects reduced materially since July 1, according to the monthly report of the United States division of crop and livestock estimates. July weather, extremely variable, effected the crop conditions, with cold winds drying out crops and cold night temperatures also proving detrimental.

Spring wheat and barley yield prospects have gone down considerably, while Decme in other crops is seasonal.

The latest statistical table gives the following for Oregon: winter wheat production, 1932, 15,920,000; 1931, 18,362,000. Spring wheat, 1932, 4,556,000; 1931, 2,400,000. Potatoes, 1932, 4,820,000; 1931, 5,460,000.

Oregon corn yield prospects are down from a month ago, the present estimate of production being 2,340,000 bushels, which is, however, still considerably above the five-year average due entirely to the increased planted acreage. Oat yield prospects dropped one bushel during July. Potatoes show a decline in condition since last month and the yield per acre is estimated at 110 bushels, compared to 130 bushels last year. Little change is seen in hay prospects, alfalfa and all tame hay yields being estimated at 2.70 and 1.90 tons respectively.

A very slight reduction in wild hay yield from 1.05 tons to 1.00 ton has occurred.

## FAMILY WOULD HOP OCEAN

A radio operator and co-pilot will accompany the "flying family."

STALLION KICKS KIEPER TALBOT, Aug. 12 — Frank Kieper met with a painful accident Wednesday. One of the neighbor's stallions kicked him on the leg. While there are no bones broken, the limb is badly bruised and very painful.

## WORK STARTED ON ADVENTIST CHURCH

DALLAS, Aug. 12 — Construction has been started on the new Seventh Day Adventist church which is being rebuilt to replace the one which was destroyed by fire during the recent outbreak of incendiary fires here. The new church is being built on the site of the old one. It will be a small one story frame building and will not have a basement.

The church that burned was one of the oldest in the city. It was originally built by the South Methodist group and was located on the corner where the Woodman hall is now. It was later sold to the Seventh Day Adventist church and moved to its present location in the middle of the block. The Southern Methodists then built the structure, which is now the W. O. W. hall, for their church.

At the time it was destroyed the small church was being used by both the Seventh Day Adventists and the Zion Mennonites. After the fire these groups have been holding their services in private homes until the new church is ready for occupation.

One Smoker tells Another

TWO girls to one man is hardly fair; but these two girls are giving the man a piece of their mind. They are telling him, and telling him straight from the shoulder, what they know—that CHESTERFIELD Cigarettes are milder—never harsh or raw; that CHESTERFIELD Cigarettes taste better and have a more pleasing aroma.

CHESTERFIELDS are clicking with millions.

THEY TASTE BETTER  
THEY'RE MILDER
