

**ST. HELENS CLIMB IS MADE BY PARTY**  
All on Chemeketan Outing Reach Summit; Good Weather Enjoyed

**CHEMEKETAN CAMP, Spirit Lake, Aug. 5—(Special)**—Under the leadership of John Scott of Portland, a large party of Chemeketas and friends made the ascent of Mt. St. Helens successfully Sunday. Everyone in the Chemeketan party made the climb. Those in the party were: E. M. Hoffnell, W. M. Hamilton, Rev. Sprague of Seattle, Beale C. Smith, Ralph Purvine, Helen Purvine, Dr. C. A. Downs, Mr. and Mrs. C. A. Sprague, Martha and Wallace Sprague; Gusle Notdurft, Walter Robinson, Richard Upjohn and Flora Turnbull.

**CHEMEKETAN CAMP, Spirit Lake, Aug. 13—(Special)**—A glorious view of Mt. St. Helens greeted Chemeketas this morning, the first full view since Sunday. The sight was a welcome one for the week of rainy, cloudy weather proved disheartening. A light north wind gives promise of a clear day Sunday when the ascent will be made.

Twenty-one have signed for the big climb. The party will leave by launch at 2 a. m. tomorrow, cross the lake, take the cars which have been parked by the landing, and drive to the timberline. The ascent will be from 6 to about noon over a comparatively easy route.

Thursday two hikes were made. Dick Upjohn led a party to 12 to Meta lake and back by Norway pass, a round trip of 14 miles. Ed Hoffnell led another party of 12 to Grizzly lake four miles away. The trips were made in pouring rain but a roaring camp fire and some of Burt Crary's hot chocolate and doughnuts restored vitality to the drenched hikers.

Friday was spent in drying out, greasing boots and enjoying the first rainless day of camp. In the afternoon 18 made a launch trip around the lake and a number made up a swimming party. The water is cool and the water cooler but Chemeketas are a hardy lot. History of Region Told by Residents

Friday night's camp fire was a glowing success, the first enjoyed without the tattoo of raindrops on the face. Songs and stunts enlivened the evening. Mr. Nelson of Harmony falls related the history and folk lore of mountain and lake. He told the story of ape men in Ape canyon for the special delight of the younger members of the party.

Earl Douglas, formerly of Salem Y. M. C. A., now with Portland Y. and attached to the boys' camp across the lake, described the ascent of the mountain. He has made the climb three times this season.

The flora of the country is varied and beautiful. Wonderful bouquets of wild flowers adorn the dining table. The trails are lined with flowers of all kinds, their colors of red and blue and white and yellow turning the mountains into a park. Reinforcements to the camp are expected to arrive this evening while J. E. Lau and family are leaving Sunday.

**Infant Given Up For Drowned is Safe Under Boat**

**ALBANY, Ore., Aug. 15—(AP)**—When his boat capsized while he was taking his family for a pleasure ride on the Willamette river here last night, Carl Hoffman swam to the side of his wife and kept her from drowning, but his frantic search to find their 14-month-old son, Carl, Jr., failed. Presently a boat came to their rescue, also towing the capsized boat ashore. When it was righted, there was the baby, uninjured, smiling at them. He had been kept safely above the water by a seat and equipment in which he had become entangled.

**DRIED PRUNE CROP HERE TO BE SHORT**  
Oregon's dried prune crop for this season will run almost 10,000 tons short of the 1931 production, if present estimates prove accurate. With great irregularity in orchards reported, the estimate on drying prunes is 17,500 tons, as compared to 27,000 tons dried last year.

In Washington, the estimate shows an even 1000-ton decrease from the 3750 tons dried last year, and in California there is an estimate crop of 219,000 tons, a sizeable increase over the 173,000 tons dried last year. These estimates are made by the division of crop and livestock estimates of the bureau of agriculture economics, which indicates northwest production will not run more than 25 to 30 per cent of a full crop. One well informed packer puts the estimate at a notch higher, at 35 per cent. In 1931, the production was 45 per cent of the full crop, generally considered 160,000,000 pounds. The estimated production of prunes for fresh use in Oregon is 30,000 tons, as compared to the 1931 harvest of 21,500 tons. In Washington, the fresh-use prune

harvest is reckoned at 24,775, more than double the 11,750 tons picked last year. Idaho harvested 19,500 tons last year, and the estimated crop for this year is 25,000. For Yamhill, Marion and Washington counties in this state, the bureau report says: "Production spotted, but with a higher percentage of good set of fruit than in extreme north and south parts of the district. Yamhill, Carlton, McMinnville, Newberg and Amity have considerable acreage with 60 to 80 per cent of normal crop. Some of the best orchards in the entire district around Dundee are barren, however. Some well-loaded orchards in the river bottom lands north of Salem."

**BONUSES ON WAY THE DALLES, Ore., Aug. 15—(AP)**—B. R. Green, commanding a Pacific coast bonus army recruited for a march on Washington are staying in an auto camp.

**Child Killed in Highway Crash; Mother May Die**  
BEND, Ore., Aug. 15—(AP)—The month-old son of Mrs. Hilbert Williams, young Indian girl, was killed last night in an automobile collision on The Dalles-California highway south of Crescent. Mrs. Williams was seriously injured and authorities at the hospital here where she was being treated said today that her condition is critical. The automobile driven by Hilbert Williams and another driven by R. O. Stevenson, Nebraska tourist, met on a curve during a blinding rain. Stevenson and his wife were uninjured, but their five-year-old son was badly injured by a piece of glass which slashed his neck.
