

## STOCKS RISE AGAIN FOLLOWING SLUMP

Wheat Boom Factor; Losses Of Previous Day Not Quite Overcome

NEW YORK, Aug. 18.—(AP)—The stock market perked up somewhat in the last hour today, after receiving encouragement from wheat.

The list saw-sawed rather feebly during the earlier hours of trading, but rallied in the last hour to close with several gains of 1 to 2 points. The price average of 90 issues, however, showed a net of only .7 of a point, or about half yesterday's loss. The turnover of 1,783,310 shares was the smallest in more than a fortnight.

The late rise cancelled most of an early afternoon sag of 1 to 3 points in several leaders. It started in the farm implements as the wheat market finally bulged up 1 1/2 cents a bushel, and in the steel dealings, rails were given a lift.

Cotton also came ahead, closing 50 to 65 cents a bale higher. Case, off 3 points at one time closed 3 1/2 higher. American Telephone likewise converted a 2-point loss into a 2-point gain. Among others—finishing about 2 to 3 points higher were Allied Chemical, Santa Fe, Consolidated Gas, Federal Light & Traction, Louisville & Nashville, Southern Pacific, Union Pacific, U. S. Steel preferred, and Timken Roller Bearing, U. S. Steel common was up a fraction at the close.

American Smelting dropped 1 1/2 and closed off 1/4 net. National Lead had one of its wide moves, losing about 9 points.

Conspicuous among earnings statements was Sears Roebuck's report of a loss of \$2,893,734 for the 28 weeks ended July 28, largely due to abnormal writedowns of inventories.

Brokers loans in the week ended last night declined \$1,000,000 to \$244,000,000, or within \$13,000,000 of the low for the past several years, reached late last month. The ability of the stock market to appreciate some 70 per cent in quoted values with only a negligible gain in brokers' loans has been hailed as one of the most impressive aspects of the market, indicating large purchases for cash.

# And Just Think We Arent Spread Out All Over Kingdom Come

As you may have suspected were referin to the store and not to our self—while we admit were no pigmy either. Now for instance emagine being a buyer for a store like this one yessir two of em. (not two buyers two stores) Think of buying a million sacks of rice. Now thats a lotta Rice. A lotta Rice, well we should snicker. We surely must mean a million Granes of rice. Confound it if we dont quit readin them Chain Store ads, the first thing you know we'l be claiming credit for all the money you folks have saved in the last year or so. Nowe'l be getting along with the problems at buying in such large quantities being so many people in the world we just naturally have to think in Volums that is to say Volums of food of course. On second thought maybe we'd better do a little thinking about selling instead of buying because a ten year old youngster can see at a glance that we already have enough foods in these two stores to feed an army for years, if of course the army wasnt to doggone big. Anyway at the prices you'l find at these two stores theres no need of any one worrying about Buying right.
