O. E. Price Reports on his Trip: Optimism Found In Factory Areas

During the past two weeks, a marked upturn in business and industry has been noted in the eastern states, Oscar E. Pride, head of the Price Shoe Company here, reported yesterday. He has just returned from a two weeks' buying trip on which he visited principal citles in Missouri, Il-linois, Indiana and Ohio.

"Factories there are hungry for business and anxious for orders. All think the depression has ralian who has been her guest reached the bottom and we are now on the upturn," he said. "Traveling men are reporting growing interest."

'All materials are selling for a higher price. It seems all lines of business are ready to start up now."

Higher figures being paid for wool, leather and cotton are giving the easterners new optimism, he found. The larger department stores in the cities there, are showing an increase of sales.

Cities visited by Mr. Price, on business, included St. Louis and Jefferson City, Mo., Columbus and Portsmouth, O., and Chicago, III.

On the return journey he missed being on a wrecked train by starting one day late. At the result of heavy rains in Iowa, the rails spread on the softened roadbed, fetting the preceding train run off the grade into mud covering the car truchs.

-and raw tobaccos have no place in cigarettes

They are not present in Luckies ... the mildest cigarette you ever smoked

E buy the finest, the very finest tobaccos in all the world-but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"-so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words-"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.
