

Says Lease Abrogated—Answering the complaint of Arthur F. and Minnie Hansen, Fred and Emma Schaeffer filed a statement yesterday in circuit court, declaring that a cash lease executed with the plaintiffs had been voluntarily cancelled and the defendants urged by the plaintiffs to remain on the land they had leased, making payment on a one-third crop basis. The defendants claim the plaintiffs are without ground for suing for \$450 cash rent.

We realize we got to make our argument pretty strong

Such language as we may use (yeah Such Language is right) for the most part will be English as this is supposed to be an ad. We don't want you folks to think its a lotta taffy, because advertising is an art and if there ever was one we're it. Write in ads for us is just as Easy as fallin off a log and some of our ads look as if we had fallin off one and a big one at that. An ad writer has to know how to spell and if youve ever read one of our ads you'll realize moren ever how hard spellin is. Yes and you'll see when it comes to makein prices theres no Beating around the Bush about it we just up and make em and to prove that statement we'll quote a few, you'll remember wont you? that the prices we quote are not our highest prices. We quote the low ones so you'll think everything's priced low and if we can do that maybe we can make a coupla millions in six months or so, like the Wall street Boys done the first six months of this year. Here they are (the prices we mean, not the two millions).
