

PETTICORD PLANS FALL'S CAMPAIGN

In every department, the First Evangelical church is planning for a rousing fall campaign. To this end Dr. Emory W. Pettigord, the pastor, is going back to the beginning of biblical studies in the Thursday night prayer services, and is treating the book of Genesis, chapter by chapter, and connecting them with his extensive travel in the Holy Land. Continuing and interlocking therewith, he will each Sunday morning this fall give expository messages on the book of Matthew, chapter for chapter, which when completed will have laid the biblical foundation of the church. To further this program, the official board has designated Sunday, October 16, a rally day, when an all-day meeting will be held, and at that time the dining room of the church will be at the service of the visitors. All department heads are now arranging for the rally program. The anthem work and the male quartet, together with the pipe organ and piano under direction of Lawrence Maves and J. H. Wilson, will provide the special music for these meetings, which are already drawing unusual crowds.

Children Mix Paint, But Not In Right Ways

Half a dozen children between the ages of five and eight early yesterday morning dumped a quantity of calcimine out of a house at 760 Rural avenue, where Henry Lehman had prepared to refinish the walls, he reported to police. They also took a brush. Officer George Edwards aided Lehman in ascertaining the identity of the mischievous children and conferred with their parents, who agreed to reimburse Lehman for his loss.

Almost Perfect Isn't It?

All Bright Clean New Stock, well displayed. Rows upon Rows of the worlds finest foods, table after table groaning with an over load of provisions. Shelves too are Bulging, loaded to the gords with foods, the handy work of scientists from all over the wide world. Refrigerator cases Actually Burdened with fresh Sweet Cream Butter, milk and cheese from the Most Scientifically Operated Creameries who flatly refuse to buy milk from other than contented (or, at least from cows spending not less than half their time improving by sleeping and eating properly). Meat counters, such a toothsome looking lot of fine meats. Tender, why, do you know some of the meat is so tender you can poke your thumb right through it. Especially is this true of the hamburger. Fresh fruit and vegetables in glorious abundance. Oh yes, almost overlooked the fish department. We get our fish from the biggest ocean in the world. In other words we're trying to tell you in our modest way we'd be glad to have you come in and see us some time.
