Goetz Asks Help of Parents In Stopping Paralysis Scare; one Case

SILVERTON, Oct. 8.—Miss Marie Klev was chosen secretary of the Parent-Teachers' association to fill the place of Miss Mary Carter who did not return to teach this autumn. The association held its first business of the year Thursday afternoon with a good attendance.

An interesting motion coming from Superintendent Goetz and being seconded by Parzy Rose, was that every second meeting of the P. T. A. be held at night to give the fathers a better opportunity to attend. The motion was carried.

At the Thursday meeting Mr. Goetz spoke of the infantile paralysis "scare" at Silverton. He said that the report was that there were 21 or 22 cases and that this was entirely unfounded as at present there is but one case. He said that the health nurse was sending home children who had colds in order to prevent a spreading of these or influenza among the children. He suggested that parents do all they can to prevent the children from getting colds and to endeavor to check the colds after they have begun.

Mr. Goetz also outlined the study project which he would like to have the association take up this winter. This was, briefly, "The study of the growth and development of free public schools and how they are supported and the study of the welfare organization in the state and how these are supported."

He explained that there were many of these latter and that they were of great benefit but that the majority of people have no idea of where the funds for their support came from. He indicated that too frequently people had the idea that free public schools and welfare organizations supported themselves and would vote down a measure just because it looked as if it lowered the taxes, never realizing what it would do to their children.

Mrs. R. L. Wright of the department of administration of the state congress of Parent Teachers association, was also present and spoke on bills which she hoped the PTA would endorse. Particularly did she mention the bills which required the inspection of homes where small children were to be placed, the county-unit and consolidation of schools, the mother's aid bill, and she further asked that they would oppose the bill whereby certain

people were trying to lower the age of child labor. Miss Mildred Wharton gave vocal solos accompanied at the piano by Miss Ruth Lawrence. The ferneries which go to the rooms whose students have the greatest number of parents present at the P. T. A. meeting went to Miss Marion Umphlet in the Eugene Field building, Miss Lawrence's in the junior high school and to Harry Wells' in the senior high school.

This is the 17th year these men have hunted together, trying out most of the better hunting grounds in Oregon, including Pistol river, in Curry county; Summer Lake and many other coast points.

WALK NEAR SCHOOL AGAIN CONSIDERED

AURORA, Oct. 8.—Members of the Community club will view the road and sidewalk leading to the school building Sunday. Attention of the county court has been repeatedly called by the club to a promise made by the court a year ago to fill in a shoulder at a dangerous place on a much traveled market road, over which more than 100 children have to travel twice daily.

The short strip of shoulder which is outside the city limits, if completed, would permit a walk to be built from the school to the town. Some years ago the citizens by popular subscription built a walk from the school to this narrow strip.

At a meeting of the community club this week it was suggested that after viewing the situation Sunday to see what could be done to improve the present walk, that a day be set and the parents of school children be asked to come out and help repair or rebuild the walk on the occasion demanded. Expressions indicate hope that the county court will fulfill its part of the work and end a dangerous condition which has existed for years.
