"Nature in the Raw is seldom MILD"

### WITH CLIVE IN INDIA

"Nature in the Raw"—as portrayed by the noted artist, Karl Godwin... inspired by the fierce and brilliant assault by Clive and a handful of followers, outnumbered 20 to 1 by savage hordes of bloodthirsty natives at the Battle of Plassey—the birth of the British Indian Empire—as described in the famous Henty book, "With Clive in India."

## —and raw tobaccos have no place in cigarettes

They are not present in Luckies... the mildest cigarette you ever smoked

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature

in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.

"It's toasted" That package of mild Luckies

"If a man write a better book, preach a better sermon, or make a better mousetrap than his neighbor, the he build his house in the woods, the world will make a better path to his door."—RALPH WALDO EMERSON. Does not this explain the world-wide acceptance and approval of Lucky Strike?
