a decrease from last week. Shipments by states were as 1625 cars, carrots 1, celery 3, there. grapes 6, mixed fruit 18, mixed vegetables 5, onions 27, peaches 12, pears 269, plums 7, prunes 1, potatoes 100, spinach 21, turnips ear, totaling 2094 cars. Idaho: apples 431 cars, cauliflower 1, plums and prunes 23, and potatoes 409 cars, totaling 934 cars.

Harvest of Jonathans is practically completed in the earlier northwestern districts, as in the lower Wenatchee and Yakima districts, and at Walla Walla-Milton. Delicious harvest is at its peak, and some Winesaps are now moving. Some acreages of Jonathans and other early varieties showing heavy worm damage are not being harvested, due to the heavy expense incidental to grading out the infested stock. Hood River is harvesting and packing Spitzen-

Shippers are moving with extreme caution, in their packing and shipping operations. Unsold rollers are being held to a minimum, and shippers are steadfast in their refusal to pack for shipment unless definitely assured of packing costs. Much of the abandonment of early tonnage is attributed in this refusal to roll unsold stock; and it is believed by many shippers that continuance of this policy will make for a firmer market during the latter part of

Extensive movement of 3rd grade, orchard run, and faced and filled packs is being maintained, in the new open-side crates and lugs, to western and mid-western markets. This package, selling freely around 35c per box for Jonathans, leaves a fair return to growers in excess of packaging costs. Sales of wrapped ed apples slowed up a week ago, and have not recovered materially. Prices have apparently reached the irreducible minimum of packing and selling costs, with the exception of Delicious, which are moving at \$1.10-1.15 for Extra Fancys, f.o.b. usual terms.

The Oregon cauliflower deal is still moving very slowly, although 42 cars were shipped last week compared with 21 the week before. The increase in shipments is not indicative of an increased demand. With lighter shipments from competing sections and the advent of colder weather, local operators were anticipating an improved demand which so far has failed to materialize. Prices range from \$1.00 to \$1.25 in eastern markets, which leaves the grower little or nothing after paying costs of harvesting and packaging. Coast points are still using considerable No. 2 stock with prices ranging from 10-40c per crate. Record-breaking hot weather, accompanied by drying winds the past week, have caused additional damage to exposed fields east of Portland.

Oregon and Idaho celery con-tinues to move slowly. Warm weather has had a depressing affect on the demand. With local supplies still abundant on numerous eastern markets, inquiry from that section has been very light.

Sale of eggs in leading Pacific coast markets-aside from Portland-and in the country generally are mostly from storage. Prices and rutabagas 5, and tomatoes 1 on fresh stock are practically of nominal character in most markets and mean little or nothing as celery 13, lettuce 25, onions 32, only a small volume is sold at the top except here.

Despite the attempt of some killers with country stations to divert supplies from Portland by quoting extreme low prices hereand paying more elsewhere-there is a real shortage of fowls in the local trade.

Improvement in the market for country killed calves is suggested. In fact a good demand is shown in both yeal and hogs with practically no price change.

Demand for country killed lamb is quite keen in the local field. Sales are generally being made at extreme prices with a quick cleanup. Yearlings are around 5-6c.

Stimulated by Stock Market, Wheat Rallies 6c

CHICAGO, Oct. 11. - (AP) -Stimulated by New York stock market upturns that preceded grain trading, cereals today developed strength after wheat had

again outdone low-price records. Rallies in wheat came after the market went momentarily to more than 6 cents a bushel under the recent higher point. Indications that Winnipeg prices were pegged and that the rural marketing of spring wheat both north and south of the Canadian boundary was diminishing were effective as

bullish factors. Wheat closed firm at almost the day's top, %-1 above yesterday's finish, corn %-% up, oats 1/8-1/4 advanced

Wheat: December, 49% - 1/2; May, 54 1/2-1/8; July, 55 1/4-1/8. Corn: December, 27-271/8; May, 31 %-32; July, 33 14.

POTATO MEN MEE AT PORTLAND SOON

Many problems of the Oregon potato producers and new market developments which may greatly affect the industry are scheduled for discussion at the annual meeting of the Oregon Potato Growers' association announced for Portland, October 20. Call for the meeting has just been sent out by E. R. Jackman, secretary of the association and farm crops specialist at O. S. C., at the direction of W. H. Zivney, Clackamas county, state president.

Possibility of shipping potatoes by water to Atlantic coast and gulf ports is one topic to be fully discussed by representatives of Portland chamber of commerce, says Mr. Jackman. Should this be surplus, it is believed. Other topics listed for discus-

sion include include truck influ- his Jerseys on test. ence on markets, rail transportation and rate revision, seed mar-..03 to .04 kets in Washington, cooperative tion of storage cellars.

growers interested.

Oregon butter, showing in competition with that from all the principal dairy sections of the country, won fourth place and scored highest over all coast samples at the National Dairy Cattle congress, Waterloo, last week, according to reports received by the

Oregon Dairy council. The winning sample, made in Portland by Adolphe Eriksen. head buttermaker of the Raven dairy, scored 94 1/2 per cent and was only beaten by fractional points by butter which was of much shorter shipment, Mr. Eriksen has won high honors in butter making at many former national

That Oregon butter is of standard equal to that of any section of the country is the belief of J. D. Mickle, division chief of the state department of agriculture. The quality of Oregon butter has improved within the last few years until it occupies a leading position in all coast markets and even commands a premius in some, according to Mr. Mickle.

"Oregon people do not realize how the cream grading and butter scoring regulations put in force within the past two years have raised the score of our market butter. At the Oregon state fair just passed we had samples of butter from Iowa, Minnesota, Tennessee and Michigan, as well as from Washington and California, and the first five places were won by Oregon creameries, all with high scores," said Mr. Mickle.

Onion Increase, Potato Decrease Now Anticipated

The 1932 production of late domestic onions in the United States was estimated October 1 at 20,428,000 bushels, an increase of more than 500,000 bushels over the estimate of the month fairs and make any arrangements previous. The production in 1931 was 12,767,000 bushels, showing a 60 per cent increase for this

> The estimate on potato production for this year is 356,847,000 bushels, about 10.000 bushels under the United States total last year, when the harvest was 365,-518,000 bushels.

Driers Busy on Pumpkin Seeds

LIBERTY, Oct. 11 .- The Lane and Bancroft driers here are starting up again, both to dry pumpkin

NEW YORK, Oct. 11-(AP)-Financial markets were firmer today, with stocks showing to best advantage.

The market opened strongly and although it met occasional setbacks, activity lessened during these periods and highest quotations were reserved for the last hour. Final levels were somewhat under the best. Volume totaled 1,747,390 shares.

American Telephone strengthened substantially coincident with word that Bell system installations had reduced the net loss to around 90,000 in September. The shares were up 3 net. Comparable gains appeared in People's Gas, Public Service of New Jersey, Consolidated Gas and North Ameri-

Rails were generally strong. Union Pacific snapped back more than 4 points, Santa Fe and Lackawanna 3 and Chesapeake & Ohio nearly as much, while New York Central, Baltimore & Ohio, Northern Pacific, Southern Pacific and Pennsylvania firmed liberally. Freight traffic reports for last week indicate that recovery was well maintained, some roads showing a larger volume of business than in the preceding period which made so favorable a showing. Oil shares came to life on news that price increases were spreading.

Dollars more than held their own against foreign monies.

AURORA, Oct. 11-The body of Mark Pierson, 23, who lost his life by drowning in the Willamette river at Portland, was brought to Miller's undertaking parlors Monday afternoon.

Mr. and Mrs. Mead Pierson and two sons Mark and Leroy, who live on route 3, had started on a pleasure trip to Kansas City by auto Monday morning. Upon reaching Portland, they

parked their car near where the Swan is anchored. While the parents were making some purchases, the sons amused themselves by throwing stones at the fish in the river.

Mark lost his balance and fell into the water. The harbor patrol responded to a call but were too late to restore life. No arrangements have been made for the
