## State Campaign is Active But Lacks Fire due to National Contest

(Continued from page 1)  
 avowedly "dry" candidates easily swept the field in the Marion county primary campaign for the legislature. The same league which was active then is busy now and while it encounters considerable opposition to Hoover, one of its responsible leaders said this week that fully 90 per cent of the league's dry vote in this county would be for Hoover.

**Business Interests**  
 The business interests about the valley are steadily swinging to Hoover. One traveling man who called on 40 hardware stores in the last three weeks in western Oregon and Washington reported almost unanimity of dealers' viewpoints on the necessity for returning Hoover to office. Many changes in viewpoint had been reported in the last two weeks.

The hope of the democrats in this state and in the nation is to appeal to the great mass of dissatisfied men and women; not with a specific program of betterment for the democratic program of improvement has been sketchy and ambiguous. Normal voters aptly characterized the democratic program, as he saw it, as one of a single plank: "We want to change officers and install our party in power."

Great industries like the lumber trade and the paper mill industry which need a protective tariff, even more protection, are trying hard in the closing days to "sell" workers on the necessity of opposing a free-trading policy advocated by the democrats. How far this leadership plow its message into the workman is conjecture.

The Literary Digest poll is being used as political capital here and in the nation. Republicans discount it on two grounds: (1) the small number of votes taken and (2) the fact that many votes have changed since the poll was made. No ardent democrat even suggests that the two-to-one ratio of Roosevelt in Oregon in that poll will be had in the election.

The state registration, nearly completed, shows the largest number of voters ever registered in Oregon with the democratic party making its greatest gains, although only a slightly larger gain than the republicans. The democratic percentage of gain has been considerably larger. At best, the republican party will go to the polls in this state, leading approximately two to one in registered votes. A tremendous disaffection will be needed to put the state in the Roosevelt column.

The republican central committee will open its largest campaign over the state this week; the Hoover-Curtis club will start a series of state broadcasts October 28. Governor Meier is expected to make at least one speech for Hoover over the air.

Oregon republicans are hoping that President Hoover will decide upon a last-minute trip across the continent, ending with a speech in San Francisco and a vote at his home in Palo Alto. They think such an appeal might safely put the coast and a portion of the west into his group of states. New England seems solid for the president with New York rapidly lining up. Betting which at first was two to one for Roosevelt to carry Oregon is tempering down and only even money could be found in Salem yesterday. Odds were being offered on Hoover's carrying the nation, one Salem man reporting he had \$1000 to wager against \$600 on the democratic nominee's victory nationally.

# Lost Ugly Fat

## Her Husband Says She Looks Five Years Younger!

There is a certain weight at which every woman looks her loveliest—not skinny underweight nor pendulous overweight, but normal weight. We find artists, doctors, theatrical producers (and husbands!) all agreed upon this point. "My husband says I look five years younger," writes this lady of 29 who—thanks to her daily dose of Kruschen Salts—has unburdened her body of 18 pounds of ugly fat. Read her letter:

"Having heard from a friend of mine that she lost considerable weight since taking Kruschen Salts, I started using them in July last when I weighed 177 lbs. I have lost weight steadily since then, and am now 159 lbs.—my normal weight. Moreover, I feel brighter and more energetic in every way.

"I have inquired of my dressmaker my measurements which in August last were bust 40; hips 43 1/2, waist 33 1/2 inches which is normal for my height, which is 5 ft. 4 in. My age is 29. My husband is a very severe critic. He says I look five years younger. There is no other reason for my loss of weight except Kruschen as I do not take any particular diet."

(Mrs.) S. R. London, England. A bottle of Kruschen Salts that will last four weeks costs but a trifle—take as directed every morning. When the jar is empty get on the scales and see how many pounds you have lost. Attention to diet will help—cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar.

But remember this: to take off fat harmlessly and SAFELY be sure for your health's sake that you ask for and get Kruschen Salts. Get them at Perry's Drug Store, Capital Drug Store, or any drugstore in the world and if the results one bottle brings do not delight you—do not joyfully salt you—why money back. Adv.
