been filed for some time, a new

He was G. A. Shamberger, clerk of the Rock Point school near Shaw, who reported 21 boys and 24 girls in his district. The census includes all children between the ages of four and 19, inclusive. Under the law, school clerks take the census as of October 25.

The reports are to be placed with the county school superintendent in 10 days from this date.

Apportionment of school funds is based on the district census.
