The Truck Driver is Human. Give him a chance! VOTE 314 X YES! FREIGHT TRUCK AND BUS BILL. MOTOR transportation companies, now inadequately regulated, require their drivers to make long, hazardous trips without rest—and at a deplorably low wage. This practice is unjust and highly dangerous. Tired men make mistakes easily. Investigation of recent major truck accidents develops that the drivers had been on duty excessively long hours. The Freight Truck and Bus Bill will stop this selfish and dangerous labor-exploiting practice by giving the driver decent working hours through reasonable and just regulations. It will make it possible for the driver to sleep at home instead of behind the wheel of a fast-moving truck. It will give him hours at home with his family, every man's just heritage. It will make the highways safer for you and your family. It points the way to a lower passenger car license. It will NOT put 27,000 men out of employment; it will increase employment by eliminating the trailer and employing two men to do two men's work. Vote 314 X Yes—Freight Truck and Bus Bill. It will REGULATE (Not Eliminate) commercial trucks and buses. No community will be deprived of adequate bus and truck service. RAILROAD BROTHERHOODS LEGISLATIVE LEAGUE OF OREGON.
