

# EGG, POULTRY MARTS HOLD STEADY ANNUAL SURPLUS SALES RACE IS ON

### Storage Butter Press Felt; Withdrawals Are Heavy

Late receipts of butter from outside points showed a decrease for some unexplained reason and there was a decrease noted in the city make according to the figures compiled by the U. S. department of agriculture. However a survey of the market fails to show a shortage of butter from either source, indicating that some of the receivers and churners were a trifle lax in reporting their supplies.

The press of storage goods continues and withdrawals are about the heaviest to date this season. Trading in the egg market continues to reflect steadiness as a rule. There was no change in local values for the day and advances at other points appeared more or less manipulative.

Many complaints are being received regarding the extreme grading rules on live chickens in the buying business. Complaints say that by this method killers can make their net cost what they want irrespective of what is offered per pound for No. 1 birds. Market for hens is holding fairly steady locally. No change in the buying prices is suggested. Sprag stuff is still inclined to drag badly with values held weak at the low point.

Very liberal carryover of country killed calves is reported by the trade. Even at the lower prices recently announced, there is a daily accumulation of arrivals from the country.

## General Markets

## Rainfall Slowing up Labors For Farmers

ZENA, Nov. 3.—The heavy rainfall this week has slowed up farming operations in the Willamette Valley. Farmers have been putting in long hours getting their ground ready for seed. Those who were just ready to start seeding will probably have to wait for better weather or else seed broadcast.

## Argentine, Canadian Sales Result in Another low

CHICAGO, Nov. 3.—(AP)—With Canada and Argentine running neck and neck to sell surplus wheat ahead of other countries, grain values everywhere fell to historic new depths today.

Canadian export sales of wheat today were estimated at 2,000,000 bushels, with overseas purchases of United States wheat reduced to zero. Successive outbursts of orders to stop losses plunged wheat here down to 4 1/2 a bushel for December contracts, a price hitherto unparalleled, with traders disturbed over fresh setbacks in British exchange rates as well as by unexpected reappearance of Russia as a wheat exporter on a large scale.

An outstanding feature of intensified world competition was the fact that prices for Argentine wheat shipped to Europe were slashed today 2 1/2 cents. Closing quotations for wheat in Chicago were shaky at but slightly above the day's bottom, 1 cent to 1 1/2 cents under yesterday's finish, corn unchanged to 3/4-1/2 lower, oats 3/4-1/2 down. Today's closing quotations:

Wheat: Dec., 4 1/2-1/4; May, 4 1/2-1/4; July, 4 3/4-1/2.  
Corn: Dec., 24-24 1/2; May, 23-1/2; July, 30 1/2.  
Oats: Dec., 15 1/2; May, 17 1/2-1/4; July, 17 1/2-1/4.
