Dedication For Church Next Event

DALLAS, Nov. 3.—Work is nearly finished on the new Christian church here and plans for the dedication of the new building will soon be made. The outside of the church is completed and workmen are now engaged in putting on the finishing touches inside the building.

When completed the new church will be one of the most modern buildings in Dallas. The auditorium will have a seating capacity of approximately 600 and the dining room in the basement will seat about 300 people at tables. The kitchen and heating plant will be in the basement with the first and second floors reserved for the auditorium and class rooms.

The new church is being built to replace the one which was destroyed by fire last spring. The old church was one of the oldest landmarks here. The new building will be much larger than the old one and with the large auditorium and dining room will be capable of taking care of the crowds attending functions here. It is planned to use the new building both for religious work and for social gatherings.
