The change to the metric system, universal standard in European competition, came as a surprise. The question, a matter of argument for years, was not on the convention program.

But the motion to supersede vards and miles with meters and kilometers was passed without a single dissenting voice in the closing session of the Union's 44th annual convention. This move obviously was aimed

President Elect Talks With Demo Leaders

By W. B. RAGSDALE Associated Press Staff Writer WASHINGTON, Nov. 22. -(AP) - Out of the whirl of war debt discussions that swept first to the White House and then to a smoke-hazy hotel room there emerged tonight a statement, attributed to the administration, that England would stop making debt payments after December 15. unless the United States moves to

Governor Roosevelt's reply was lescribed as a disavowal of responsibility for what is done before March 4.
