GUESS WHO

You may be one of his many admirers, but it is unlikely that you'd recognize this Oriental as Ramon Navarro if we didn't let you into the secret. The screen star, who is playing the part of a Chinese prince in a forthcoming movie, took great pains with this make-up, even going to far as to have his head shaved to the bone. Now the perfect almond eyes.

BATTLE OVER AVIATION CONTROL

No candidate for election to the Presidency of the United States ever sought votes so eagerly as the adversaries in the Wall Street battle for control of the Aviation Corporation of Delaware are seeking prizes for it is the man with over 50 per cent who will have his hand raised by the referee. The principals in the battle of the money magnates are Errett L. Cord, 37-year-old financier, automobile manufacturer and aviation enthusiast, and La Motte T. Cohn, millionaire broker, ex-Princeton athletic star and intercollegiate wrestling champion. In the old days it was for control of railroads that the great proxy battles were fought in Wall Street, but in this advanced age the aim of the battles is control of the skies. Cord, who pulled himself up from being an automobile washer and polisher to power in the automobile industry, holds 30 per cent of the stock, about \$5,000,000 worth, in the Aviation Corporation. He says he is interested himself in the affair at the request of William A. Harriman, of the famous railroad Harrimans. It was Cord's idea to get control of the company and to put air travel within reach of anyone who could afford to travel by train. Cohn, president of a holding company, one of the biggest investments of which is the Delaware Corporation, is opposed to Cord's program and seeks to merge the Delaware with another aviation company. So the war is on, and the money magnates of the Street are taking sides, the powerful brokerage organization of E. F. Hutton aligning itself behind Cord, while the famous banking house of the Lehmans is backing Cohn. The mighty railroad Harrimans have so far remained neutral.

Chesterfields are Milder

Chesterfields Taste Better

As smokers become more experienced, they demand milder cigarettes. Chesterfields are milder. Their mildness is just as much a feature as the beauty of their package.

The tobaccos are mild to begin with. Patient ageing and curing make them milder still. And Chesterfields contain just the right amount of Turkish—not too much—carefully blended and cross-blended with ripe, sweet Domestic tobaccos.

Chesterfields are milder. They taste better. That's why "They Satisfy."
