Labish Celery is Off Hundred Cars This Year, Report

HAZEL GREEN, Nov. 23.—James Yada finished cutting celery Monday. The other growers will be through the latter part of the week. The last cutting is usually made by Thanksgiving, as it is necessary to finish before a heavy frost. The Labish Meadows Celery Growers' union is short about 100 cars this year.

The late crop of lettuce has been harvested. There is to be marketed carrots, beets, turnips,

spinach and large winter radishes. As water often covers much of this land in winter the gathering of late crops is a disagreeable job. The heavy expense of fertilizer, power for pumping water for irrigation, and labor, has taken the profit from the grower.
