Some limited volume of sales to both foreign and domestic outlets has continued during the entire season, but packers have mostly been able to fulfill these transactions from stocks purchased earlier in the season. Export inquiry is at a standstill, awaiting the outcome of international debt agreements, which are expected to be settled in mid-December. Little export business is anticipated un-

Work Against High Waters Being Done In Lyons District

LYONS, Dec. 9 - Several men are employed at the rock crusher on the John Jungwirth place this week. A little work is being done to prepare for high water, and some carpenter work covering a shed for the crusher engine. The district hasn't funds to permit much work this winter.

Mr. and Mrs. Wm. Cone of Eugene spent Saturday night at the U. S. Berry home. Mr. Cone filled the pulpit at the Mill City Christian church Sunday while Mr. Bates, the minister, was at Eugene. Mrs. Cone is teaching near Eugene, and her husband is attending the university there.

SCOTTS MILLS, Dec. 8 - A large group of young people from the Court street and First Christian churches of Salem, members and friends of the missionary guild, motored here Monday night to have the regular monthly meeting of the society with Mr. and Mrs. B. EUROPEAN HOP MART GRAINS MOVE AHEAD CAUTIOUSLY

1500 cwt. Remains in Hands Of Growers; Practically No Sales at Present

Latest word from continental Europe on the hop situation there indicates a strong tendency prevailing; in Germany, for instance, it is said there is not more than 1,500 cwt. remaining in growers hands, with practically no sellers at present.

Spalts and Tettnags have almost

entirely disappeared. The narrow

markets in Germany, France and

Jugoslavia led to a concentration of the demand in Czechoslovakia and Poland, with the last named country having been cleared of those destined to Italy was likehops at advancing prices. In Cze- wise of relatively slight effect as cheslovakia, buying has been strong and led to a reduction of buyers. open stocks to about 10,000 cwts. at present. At present, the quantitles remaining unsold in Central Europe are estimated not to exceed 15,000 cwts. Much of these stocks consist of middle to inferior qualities. The demand for choice qualities has led to rising prices in the Saas district which as of Nov. 22, ranged from 700 to 1200 Ke, equal to \$20.77 to \$35.61 per 50 kilos, or 110 lbs. Quotations in the Nurnberg market for Hallertaus as of Nov. 22. ranged from 210 to 230 R. M. equal in U.S. currency to \$49.94 to \$54.69 per cwt.

ley at London cables Dec. 7, as follows: The Hops Marketing Board announces price advance, equal at current rate of exchange, of 1%c per pound, effective Jan. 2. Until that date present prices will be maintained. Commercial estimates indicate 70 per cent of the 1932 crop has already been Dried prune markets are ex- disposed of. Imports for the last remely quiet in all northwestern three months show a decided decrease. Imported stocks are low and little business being done on account of the large margin between local and imported hops, with exchange conditions accentuating difference in American varieties. Beer consumption is reported decreasing.

Agricultural Commissioner Fo-

CORVALLIS, Nec. 9...(AP)—

A downward trend in egg prices and a somewhat uncertain tone of the turkey trade were reported today in the weekly review of egg and poultry markets by the U. S. D. A. bureau of agricultural economics cooperating with the O. S. pounds, \$3.50-3.75, Light lights, 140 to 160 pounds, good to 180 pounds, \$3.50-3.75; 180 to 200 pounds, \$3.50-3.75, Medium weight, 200 C. extension service. Liberal production, weakness in eastern markets and curtailment of demand by recent price rises were leading factors in the decline in the coast egg situation.

Egg production on the coast has increased this fall at a more rapid rate than a year ago, while the mixed color eggs of the middlewest have about reached the seasonal low point in production, causing the white eggs in the east to suffer a larger share of the price drop. Carlot shipments from the west increased 10 per cent to 114 cars last week, which was 30 per cent above a year ago. Turkey shipping districts are

now loading for the Christmas

markets with indications that the

deal for this season will be some-

what larger than a year ago, unless producers refuse to sell, and hold for the post holiday trade. Marketings for the Thanksgiving trade were not relatively heavy, considering the size of the crop. Storage and import figures for November are not yet available, but indications are that both will show totals far below a year ago,

materially offsetting the effect of

the 13 per cent larger estimated

domestic production this season.

Coolness Will Result In Vegetable Rise Soon, Forecast

Hogs climbed 10 cents a hundred to top of \$3.50 locally yesterday, while a one-cent gain, to 21 cents a dozen, was announced for extra eggs. Other egg quota-

tions remained the same. So far the freezing weather had brought no quoted advance in vegetable prices, but with stocks on hand growing low, an increase is likely in the next day or so. This is particularly so should the weather continue cold today.

For the second time this week stocks showed some life on the upside today, although, as was the case Tuesday, the rally appeared to be at the expense of the short interest.

point. General Electric and Radio recelved quietly news of the former's distribution of the latter shares. U. S. Steel Preferred, now undergoing fresh qualms as to possible dividend action late next month, weakened 2 points or so and then recovered. Safeway Stores, with the dividend reduction from \$5 to \$3 annually out of the way, profited moderately by short repurchases. American Telephone improved more than a point, Allied Chemical ran up nearly 4 points. Du Pont and American Can about 2.

STEADY PAST WEEK

CORVALLIS, Dec. 9 .- (AP)-Oregon hop markets remained steady during the past week with trading about at a standstill, as growers were not inclined to sell at present quotations while dea!ers were reluctant to advance their bids pending further market and executive developments, it is stated in yesterday's weekly review by the U. S. D. A. bureau of agricultural economics, cooperating with the O. S. C. extension service. Prevailing quotations are

still 28 cents net to growers. Previous high marks were exceeded in Washington and California, when sales were made as high as 27 1/2 cents per pound. though there, as in Oregon, there is little disposition to trade just at this time. In all these sections the comparatively light remaining stocks in first hands are held by those capable of holding for jurther market developments, and in most cases they are asking several cents above present market prices when willing to place ony
