# ONION GROWERS COMBAT PRICE CUT

NEW YORK, Jan. 10-(AP)-Financial markets gave optimism the benefit of the doubt today and quotations lifted, in some cases smartly.

Shares, after a couple of hesitant hours swung upward with a vigor that suggested hasty short covering, reserving their best efforts for the last hour when wheat's climb of 2 to 21/2 cents a bushel brought livelier action on the stock exchange. Cotton added 45 to 75 cents a bale to its market value. Bonds plugged away at their heartening advance. Sales during the last fifty minutes approximated 600,000 shares, roughly half the total business of 1,146,837 day's shares.

U. S. Steel issues were in demand, the Common rising more est condition since government than 2 points and the Preferred about 4. Shorts in the latter appeared less certain as to what diridend action was to be taken late this month, and covered rather freely. Wheat's bulge, attributed partly to weather prospects, lent a hand to the farm group. Case jumped around 4 points and Harvester nearly 2, while mail order issues were firmer. Industrials were strong. Eastman Kodak. American Can, Allied Chemical, Westinghouse, American Tobacco "B," Auburn, Nash Motors, Continental Can, Liggett & Myers "B" and Standard Oil of New Jersey improved 1 to 3 net.

OAK POINT, Jan. 10 .- Since the warmer weather, farmers can tell just how much damage was done to the grain during the cold Oats—No. 2 white \$17. Corn—No. 2E yellow \$17.50. Millrun—Standard \$18. spell. The gray oats are frozen out and vetch seems to be nearly all gone, but in some places it may come out and be part of a crop. Old white winter wheat is all right and is looking good. Hay will be scarce, as it is mostly the hay crop that is gone. Rink wheat does not stand the freeze as well

as white winter, and it may not Sheep men are having to feed their sheep ever since the cold weather, as pastures were frozen. Most sheep men fead oats in feeder troughs. The kale was badly damaged also, and all roots were frozen.

## Wool Inquiries Lively, Business Still Moderate

BOSTON, Jan. 10-(AP)-Inquiries for wool are numerous, but actual business continues rather moderate. Trade is mostly on 64s and finer wools, although some interest is shown in medium, with 48, 50s receiving more attention than for several weeks. Sales of Delaines have been closed at around 19 in the grease for strictly combing \$4s and finer Ohio and similar wools, shrinking 59 to 60 per cent which is 46-47 scoured basis.

# BOOSTED SMARTLY WHEAT WHIRLS SUDDENLY HIGHER

Much Oversold CHICAGO, Jan. 10-Wheat whirled suddenly upward almost three cents a bushel today just

before the market closed. Alarmed by an extreme dearth of offerings that indicated a much oversold condition of the speculative wheat pit, flurried traders joined in a wild rush to buy, and stop-loss orders wholesale were forced into execution as values shot upward to 50 cents a bushel or higher for the entire list of future delivery contracts. Forecasts of a cold wave were current that

crop reporting started in 1863. Wheat closed strong, 2%-2% cents over the day's bottom and 2-21/2 cents above yesterday's finish. Corn closed %-% up, oats

suggested damage to domestic

winter wheat, already at the low-

%-1/4 advanced. Today's closing quotations: Wheat-May, 50 %-%; July, 49%-50; Sept., 50%-%. Corn-May, 27 %; July, 29-29-6: Sept., 30 1/4. Oats-May 18; July 18 %.

### To Hold for 60e Cwt.1 Western Outlook is Above East

LABISH CENTER, Jan. 10-Labish onion growers made the first move Monday night to ward off any such conditions as arose two years ago, when growers became uneasy about the price situation and began to consign carload lots, with the result that prices already extremely low took the toboggan slide to almost noth-

At Monday's meeting, the more than 50 growers present agreed not to sell any produce less than 60c a cwt. until the organization for the selling of the remainder of the present crop is completed. A. F. Hayes, of Hayes Labish farms, who called the meeting, said that unless measures were taken, the experiences of 1936,

were imminent. Hayes Heads Committee After slight discussion, a temporary committee of five growers headed by Mr. Hayes, was elected to draw up a plan for the disposal of the remaining onions, about 600 carloads. W. A. Starker, August Harris, O. G. McClaughry and H. Boehm are other members. is probable that another meeting will be called soon. One plan suggested was that those growers who wish to sell on a certain day would place their names on a blackboard at headquarters, and then buyers would go directly

to the growers. The group would fix a minimum price level . The outlook for the local growers appears more favorable than in any eastern sections. It is reported that more onions are in storage in eastern centers now than at the beginning of last year. Oriental trade has bolstered up the situation here.

It is highly probable that U. S. government inspection will be required by most buyers now, how-

PORTLAND, Jan. 10-(AP)-Drop of 1c in the price of butter here during the session of the produce exchange appeared more or less unnecessary in view of the fact that a general cleanup of current offerings has been noted here during the last few days. Butter speculative interests are said to be forcing down the price here so as to create

greater profits for themselves on shipments to the south. There was no doubt of the increasing churn in the Pacific northwest sector but up to this time there has been a good outward movement sufficient to take care of the surplus.

The cut of 1c lb in the buying

price on butterfat followed the

lower quotation on the exchange. Advanced egg prices quoted by the local co-ops were maintained with the south the chief buyer. Talk of higher prices here than the co-ops was not credited by the trade inasmuch as the ones reported getting more were said to usually quote high and sell Further advance of 1c lb. in
