School Board Meets - Discussion of school legislation is ex- Siegmund, mechanical drawing pected to be the main topic at the Salem school directors' meeting was arrested yesterday on com-Tuesday night in Superintendent | plaint of his wife, who charged Hug's office, 434 North High street. The directors are especially interested in the outcome of the bill calling upon governmental subdivisions to reduce their budgets 20 per cent. It is the belief of some of them that this law, if passed, would severely penalize the districts which have operated in the past under conservative budgets. Another matter of vital interest is the threatened repeal of the high school tuition and transportation laws.

#### Incidents and Personalities More or Less Connected With the State Legislature and Its

Not a few legislators, impecunious or thrifty, have found board and room for \$30 a month while here. Hotels have not made rates quite as reasonable. The up-state legislator oftentimes prefers not to stay at a hotel. There are too many late parties, too much noise, too many lobbying attacks. The strong, silent men from varied parts of the up-country go home at night, say little, harbor the \$3 per diem and are prompt at

### CROWDS VIEW NEW FORD V-8 MODELS

Wheelbase Longer, X-Type Frame Shown; Cylinder Heads are Aluminum

The fact that the great majorty of motor car owners—both men and women-are mechanically minded, was demonstrated yesterday when the new Ford V-8 merman. Senators Hess and Mann cylinder, 112-inch wheelbase motor cars were first placed on display in the showrooms of Valley Motor company, local Ford deal-

The 75-horsepower V-8 cylinder engine, with its new aluminmountings, the new double-channel, double-drop X-type frame, newly designed head and cowl lamps, bumpers and horn, skirted front fenders, smaller wheels and larger tires appeared to attract and luxurious interior appoint- by ordinance.

production of motor cars. It is ex- went down to defeat. ceedingly flexible in traffic and capable of a sustained speed of 80

miles an hour on the open road. design. Because aluminum dissisure which results in increased speed, power and smoothness, ununusual acceleration and fuel economy.

Knocking Less Likely The cylinder heads have combustion chambers of improved design and are fitted with new 18 millimeter spark plugs with high heat conductivity of the head material also obviates the tendency toward detonation or knocking, eliminates "hot spots", and reduces carbon deposit.

The 90-degree type crankshaft is fully counterbalanced and the piston and connecting rod assemblies are matched in weight to produce unusual operating smoothness. The engine is fitted with downdraft carburetor, air intake silencer and diaphragm fuel pump.

Through achievement of Ford engineers, the two cylinder blocks and crankcase are cast in a single piece, the cylinder blocks being set at an angle of 90 degrees. This design provides an exceptionally compact power plant. Basically the engine is similar in design to the first Ford V-8 engine introduced in 1932.

The U. S. land office is the custodian of 173,000,000 acres of public domain subject to all the applicable public land laws.

### MEMBER United States **National** Group

### Added Strength Without Reducing Serviceability

Much has been gained by the affiliation of the United States National of Salem with the United States National of Portland. First, greater cumulative strength-second, a desirable degree of liquidity-third, a uniformly economical administration. And yet, the service remains individual in every respect. It's a much appreciated combination of features, isn't it?

UNITED STATES NATIONAL BANK

SALEM, OREGON

### BRANCH BANK BILL PASSED BY SENATE

City Receivership Measure Also Approved: Interest Cuts are Voted Down

Approval of the senate was stamped yesterday on two important bills, one permitting branch banking, and the other giving cities the power to go into receivership when they have defaulted in their bonds or other financial obigations. The branch banking bill passed by a vote of 22 to six.

Senator Williamson declared that this bill had received careful consideration by the banking committee and that the opposition had narrowed down to the officials of less than a half dozen financial institutions located in the more remote sections of the state. Williamson said that every safegurd had been thrown about the proposed branch banking pro-

March 15-18-State high basketball tournaschool

The usual early hegira to the county school superintendent's office in search of information concerning teaching positions in the county has started, with old and new teachers, employed and unemployed in the number.

At this time those seeking jobs are after the names of school board directors, largely, as it is early to tell where there may or may not be vacancies. While a very few small districts have already rehired their present teachor for 1933-34, there is as yet little knowledge as to where vacanies will be.

School boards which ordinarily select their next year teachers this early in the year have adopted a watch and wait policy this year, nasmuch as matters before the egislature may materially change the teacher setup in some schools.
