WHEAT UPTURN SALES BEARISH,

Butter is Retaining Strength; Chicken Supplies Scant

PORTLAND, Feb. 18-(AP)-Market for butter continues its recent showing of strength locally. Outside shippers who have been trying to hold down the price at Portland so they could secure a profit on California business have been unable to retain their hold because of the scant churn-

Demand for butter in the home territory appears sufficient to clean up everything churned here. Butterfat prices were mixed but

entinue very firm generally. Market for eggs continues to reflect shaded prices, more or less openly. Few sales were being made at the prices officially listed with outsiders still reported as underselling all competitors.

were noted in the live poultry trade. All sorts were moving out into consuming channels at the weekend with prices held intact at the recent slight betterment. Well held prices were generally

showing in the market for country killed meats. Top quality veal and lambs were firmest but there was a good demand for hogs which is cleaning up all arrivals of quality.

SHELBURN, Feb. 19 - Sheep men in this section are rather discouraged this season, many of the lambs are dying as well as lots of the old ones. Shortage of green feed is thought to be the cause. The Sunday rain washed a small culvert out, in the private lane that leads to Mrs. Ollie Funk's house, and when her son Guy returned home Sunday night, he drove his car into the opening.

His span of mules had to pull the car out. A number from here attended the program Tuesday at the Arnold school, furnished by the school of applied science of the state university and was one of the best in recent years.

All Grains are Shade Off Despite Dust Storm Reports

CHICAGO, Feb. 18-(AP)-Pertinacious selling that developed on wheat price upturns, and was attributed to government fi-nanced bodies, had a cumulative bearish effect today at the last. Setbacks in wheat values were in the face of late reports of dust storms in Kansas and despite rumors that Japan had been buying wheat, cotton and scrap iron, with China buying wheat from Australia. Comparative strength shown by the wheat market in absorbing government financed offerings was looked upon in some quarters as an incentive to pur-

chase. Wheat closed unsettled at a shade to % below yesterday's finish, corn 4-4 down, oats at %-14 decline.

Today's closing quotations: Wheat-May, 47%; July, 48-%-%; Sept., 49 1/2. Corn-May, 25 % - 1/2; July, 27. 14-14; Sept., 28%.

Oats-May, 16 % - 76 .

Is Greatest Weekly Gain in

Many Months: Cattle

Show Improvement A sharp advance of 75 cents in the price of hogs at Portland was the feature of the past week's livestock markets as reviewed by the U.S.D.A. bureau of agricultural economics cooperating with the O.S.C. extension service. In one week the price of light butchers jumped from \$3.75 to \$4.50, the greatest weekly gain in many months and the highest price since the first of last October.

Portland hog prices normally move upward gradually from December to the middle of March and then decline at about the same rate until June when prices usually advance sharply to the season's peak about August 1. Other types of livestock were fairly steady, though steers ad-

vanced a little at Portland and

lambs decilned slightly at Chi-
